GLASSES LEAD TO SEIZURE

Believed Owner of Spectacles Found at Death Scene

Leopold, a student at the University of Chicago, and master of the glasses admitted losing a pair of glasses similar to those found near the body of the slain woman. He was taken into custody after making one of the glasses from a local optician.

MACREADY'S BABY

125 Members Leave Lima Friday for Youngstown

Members of the Lima Kiwanis Harmonic Club are on their way to Youngstown, where they will sing in competition in the eisteddfod at that place Saturday.

Three huge Garford trucks carried 125 singers of the club to Youngstown. They left for that city at 6 a. m. Friday.

The entire Hotel Youngstown has been reserved for them and will be at their disposal when they arrive. A rehearsal will be held Friday evening at the hotel, which will be the last for both choruses. The mixed chorus will sing Saturday afternoon and the male chorus at night.

Rev. William Surdval, of Ottawa, said to be one of the greatest eisteddfod conductors in the country has been chosen conductor and literary adjudicator at the Youngstown contest.

The Hon. James J. Davis, secretary of labor under President Coolidge, will have charge of the evening session.

Prizes totalling \$2,400 are being offered, \$1,000 being for the best male chorus and \$1,000 for the best mixed chorus.

TWO-GUN BANDIT GETS 80 CENTS

Highwayman Robs O. S. Kiser of Wallet Thursday Night

A two-gun man, unmasked and dangerous, flashed two guns here Thursday night in the robbery of the O. S. Kiser grocery, 1223 N. West-st, and obtained 80 cents loot for his trouble.

In regular William Hart wild west fashion the diminutive two-gun man with a 38 caliber pistol in each hand walked into the Kiser grocery at 9 p. m. Thursday.

"Stick 'em up," he cried in true wild west form. Kiser complied and the bandit coolly walked toward his victim with both guns leveled as he commanded Kiser to turn his back while he extracted Kiser's wallet from his back pocket.

The bandit, described as about 5 ft. 4 inches in height and weighing about 130 pounds, walked out of the front door with his weapons trained on his victim, who told police of the loss of 80 cents and a pocket book.

CITY PAUSES TO DECORATE GRAVES HERE

Factory Wheels Halt; Offices and Stores Close Doors

MANY JOIN IN BIG PARADE

Patriotic Organizations Participate in Afternoon Program

Lima paused Friday, Memorial Day, in silent tribute to soldier dead of many wars. Factory wheels stopped their daily grind, city offices closed and doors of business houses are locked for the day.

An extensive Memorial program arranged by the G. A. R. in conjunction with the American Legion and other patriotic bodies, is being carried out.

Scores of Civil and Spanish War veterans as well as hundreds of members of other patriotic bodies within the city gathered at Elm-st facing Main-st for the Memorial Day parade Friday morning.

Represented in the parade were the American Legion, Spanish War veterans, G. A. R., platoons of police and firemen, boy and girl scouts, ladies auxiliaries of these various organizations and hundreds of citizens in autos.

After forming, the parade proceeded north on Main-st, east on Spring-st, to Union-st, north on Union to Market-st, west to McDowell-st, and then to cemeteries in autos.

MEMORIAL GRAVES

Members of the Women's Relief Corps were taken to cemeteries in 35 autos donated by the Lima Automobile club.

Cemeteries within the city are being visited first, after which those in the outlying districts will be decorated. Graves of veterans are being decorated in the following cemeteries: Woodlawn, Gethsemane, Old Cemetery, St. Matthew cemetery, Greenlawn, Bethlehem, Harrod, Auglaize, Salem and Lafayette.

Students of Lima public schools furnished flowers for the decoration of graves.

Memorial Hall will be the scene of memorial services outlined by the G. A. R., American Legion, Spanish War Veterans and affiliated organizations at 2 p. m. Program is as follows:

Invocation, Rev. Martell George; music, G. A. R. drum corps; music, Virginia Peck; reading, Cynthia Craig; solo, Mrs. Clarence Klinger; address, Dr. John Davidson; music, drum corps; and benediction by Rev. Martell George.

Members of the program committee representing the various patriotic organizations are W. D. Henner, general chairman, and M. M. Meyers and Mrs. Florence Stevenson.

Business houses remained closed Friday. Drug stores, groceries, and others who usually remain open for a few hours are included. All city and county offices remained locked.

No mail deliveries, either city or rural, are scheduled although mail will be dispatched as usual. A collection was made at 6 a. m. and another will be made at 5 p. m.

4 PERSONS KILLED

Victims of Storm Sweeping Through Northeastern Arkansas

LITTLE ROCK, Ark.—(United Press)—Four were killed in storms which swept northeastern Arkansas last night. The dead:

Mrs. Elmer Caulton, killed near Fayetteville, when her farm home was wrecked.

Ray Thomas fatally injured near Farmington.

Jim Pierce and daughter Alice killed near Oklahoma boundary line when storm swung west and south from Fort Smith.

KEEP FIRM HAND ON GERMANY

Allies Will Not Relinquish Military Control

LONDON.—(Associated Press)—The allies intend to keep a firm hand on military control on Germany by maintaining the commission of control in full operation until the disarmament demands made in the treaty of Versailles are fully executed, according to a long note from the council of ambassadors sent to Berlin from Paris today.

The ambassadors' communication was in reply to the German note of March 31, in which the Berlin government maintained that it was time for the League of Nations to take over the supervision.

The ambassadors' note reaffirms the contention that it is the legal right of the allies to decide for themselves when the time has arrived for transferring the duty of controlling German armaments to the league after the time limit clauses have been executed.

"It would be hardly possible to contend that this condition is fulfilled today," the note adds.

WOMAN IS KILLED

Automobile Crashes Into Culvert at Cincinnati

CINCINNATI.—(Associated Press)—Mrs. Hazel Smith was killed today when the automobile she was driving ran into a culvert and overturned. Three other occupants of the machine were slightly hurt.

Mrs. Smith was the wife of Daniel Smith, formerly in the pawn broken business here.

A DAY OF MEMORIES

DONAHEY GRANTED TICKET TO G. O. P. CONVENTION

CLEVELAND.—Governor Donahey's request for two tickets to the Republican national convention here will be granted, James L. E. Jappi, secretary of the local convention committee, declared today. If Governor Donahey attends the activities, he will be seated among the Republican dignitaries on the stage of Public Hall.

All alterations of Public Hall have been completed and practically everything is in readiness for the opening of the convention June 10. The five-foot tongue extending from the stage, to be used as a speaking platform, has been built. Bids have been cut in the floor for two stairways leading between the press seats on the north floor and the working rooms and telegraph instruments in the basement.

BIDS ON BRIDGE ARE ASKED

Elida Letting to be Held in June. Letter Asserts

Bids for construction of a bridge over the Ottawa river west of Elida and a quarter mile of pavement to close a gap in the Harding highway will be received early in June according to word received from Columbus by the Lima Automobile club.

All bids were rejected at a previous letting held by the state highway department Mar. 31. Lima Construction Co., Lima, was low bidder at the previous letting, with a price of \$16,000 under the estimated cost.

Because of the lowness of the bid, it is believed that revised plans will call for a much more substantial structure, using an arch design in place of steel span.

VICTIM OF SHOCK DIES FRIDAY

Basinger Severely Burned in Contact With Wires

Pete Basinger, 39, of 817 W. Wayne-st, died early Friday morning at the City hospital from burns received Wednesday afternoon when he came in contact with an electric switch on a transformer at the Rob-av sub-station of the Ohio Power Co.

Basinger was engaged in painting a transformer at the Rob-av sub-station with carrying 33,000 volts of electricity. He was severely burned about the arms and chest and sustained several scalp wounds when he was knocked to the ground.

He had been employed at the Ohio Power Co. only a short time. He is survived by the widow, Mrs. Lena Pangle Basinger and two children, Kathleen and Jack. A brother, Calvin Basinger, and two sisters, Ella Basinger and Mrs. Harry Robinson, also survive.

Funeral services have not been arranged.

MAN IS INJURED

Main-st Worker Struck by Traction Car, Head Cut

A G. Gilchrist, of Ada, employed on the Probate court working on S. Main-st, sustained cuts about his head and slight body bruises Thursday afternoon when he was struck by a city street car in charge of C. W. Griffith.

The man is said by witnesses to have stopped in front of the car which was moving at a slow rate of speed. He was taken to a doctor's office where it was reported his injuries were slight.

CITY ISSUES WARNING TO TRACTION CO.

Bingham Claims Local Utility Officials Violate Franchise

NEW TRACK FOUNDATIONS

Paralyzing of Traffic Threatened by Non-improvement

Serious delay in the completion of the Main-st paving may be seen unless new foundations are installed immediately under the Lima City Street Railway Co. tracks in S. Main-st, C. A. Bingham, city manager, asserted Friday.

Work on the foundations was to have been completed by April 1, 1923, Bingham said in pointing out that this matter is definitely provided for by the franchise granted the company.

Excavation of portions of S. Main-st along the west side of the street railway tracks where the foundations have not been installed, is nearly completed and in a few days the curbing and street foundation will be started.

It had been planned to lay the new pavement over the west half of the street and over the car tracks. Because of the failure of the company to place these foundations it will be impossible to lay the bricks at the car tracks, Bingham said.

Contractors working on the street issued an ultimatum along with that of the city. Briefly the plan of operation is as follows:

Street pavers will complete the west side of the street up to within 18 inches of the car tracks. At that point the street foundation will end.

UP TO COMPANY

The Pennsylvania tracks and then will be started on the east side of the street going south toward the Ottawa river.

It will be up to the street car company to complete their foundation work between the time the pavers leave S. Main-st and return if they are to use the east side of the street for their trucks and machinery.

If the street railway delays the work until after the pavers have laid the new base to within 18 inches of the car tracks on the east side of the street the newly paved street will be closed to them and they will be compelled to use the car tracks for the hauling of dirt and supplies and the operation of necessary machinery.

This will practically paralyze street car traffic on S. Main-st, it is pointed out, as one car track must be kept open at all times if service is to be maintained and the small amount of space left would be insufficient for the amount of work to be done.

Several notices have been sent the company warning them as to the results of delay on their part, Bingham said, but to date very little effort has been made to comply with promises made to the city.

Franchise granted the company also provided for the removal of wood poles and the installation of iron poles along Main-st. No effort has been made by the company to comply with these provisions, Bingham asserts.

Formal ultimatum from contractors working on the Main-st pavement and the city has been served on local officers of the street railway company and upon Thomas Newhall, representative of the Dixiel interests in Philadelphia, Bingham said.

It is believed at city hall that the street railway company will complete their work at once rather than be compelled to be up transportation on S. Main-st later in the summer.

STONE TO BE PROVIDED FOR TOWNSHIP ROUTES

At a meeting for the distribution of stone among townships in the county were made by commissioners in a series of conferences with township trustees Thursday.

Trustees were asked what roads in their districts needed repairs, and what amount of stone will be needed.

Trustees are taking care of a number of roads themselves, and are improving them in part with stone gravel furnished by the county.

Improvement of the main county roads, however has been taken over by the county commissioners.

MISSISSIPPI DEMOCRATIC CONVENTION IN SESSION

JACKSON, Miss.—The state Democratic convention met today to name national delegates, select a state executive committee and a national committeeman and committee woman.

Seventy-two of the 82 counties at the recent county conventions favored un instructed delegations. Five instructed for Senator Oscar Underwood of Alabama and four supported Senator Pat Harris of Mississippi, for the presidential nomination. The other county favored a Mississippi first and Underwood second.

SPECIAL DISTILLERY TO MAKE BOOZE FOR U. S. IS PLANNED

WASHINGTON.—(Associated Press)—The fluctuations of the financial fortunes of the governments of neighboring British colonies, for instance of the Bahamas Islands, lifted from debt to prosperity since the United States went dry, and of the Bermuda Islands, which have won from the Bahamas much profitable business in exporting liquor to the American coast, is being watched with interest by the prohibition enforcement officers here of the government. Bermuda now has a handsome surplus in its treasury. The latest development in the Bahamas, a move to start a distillery to manufacture American rye whiskey all stocks of which, as far as the bootlegging business is concerned, are practically exhausted, has come to the attention of prohibition officers. In the Bahamas assembly W. K. Moore recently moved the appointment of a select committee to enquire into and report on the working of the spirits and beer manufacturers' act of 1920. Speaking to the motion, Moore told his fellow legislators that opportunities were coming to their island. The Bahamas, he declared, had encouraged the liquor traffic, but there was no American rye whiskey available; the enormous supplies exported from the United States to those islands before prohibition having been exhausted by the bootlegging business in the four years since then.

Persons interested in the distillery, Moore stated, believed the manufacture of rye whiskey and its export to the American coast would be the means of resuscitating the island's rum running trade and add to Bahamas' revenue, now at low ebb because much of the rum running business was being conducted from Bermuda. A committee of seven members was appointed to report on the working of the spirits and beer manufacturers' act.

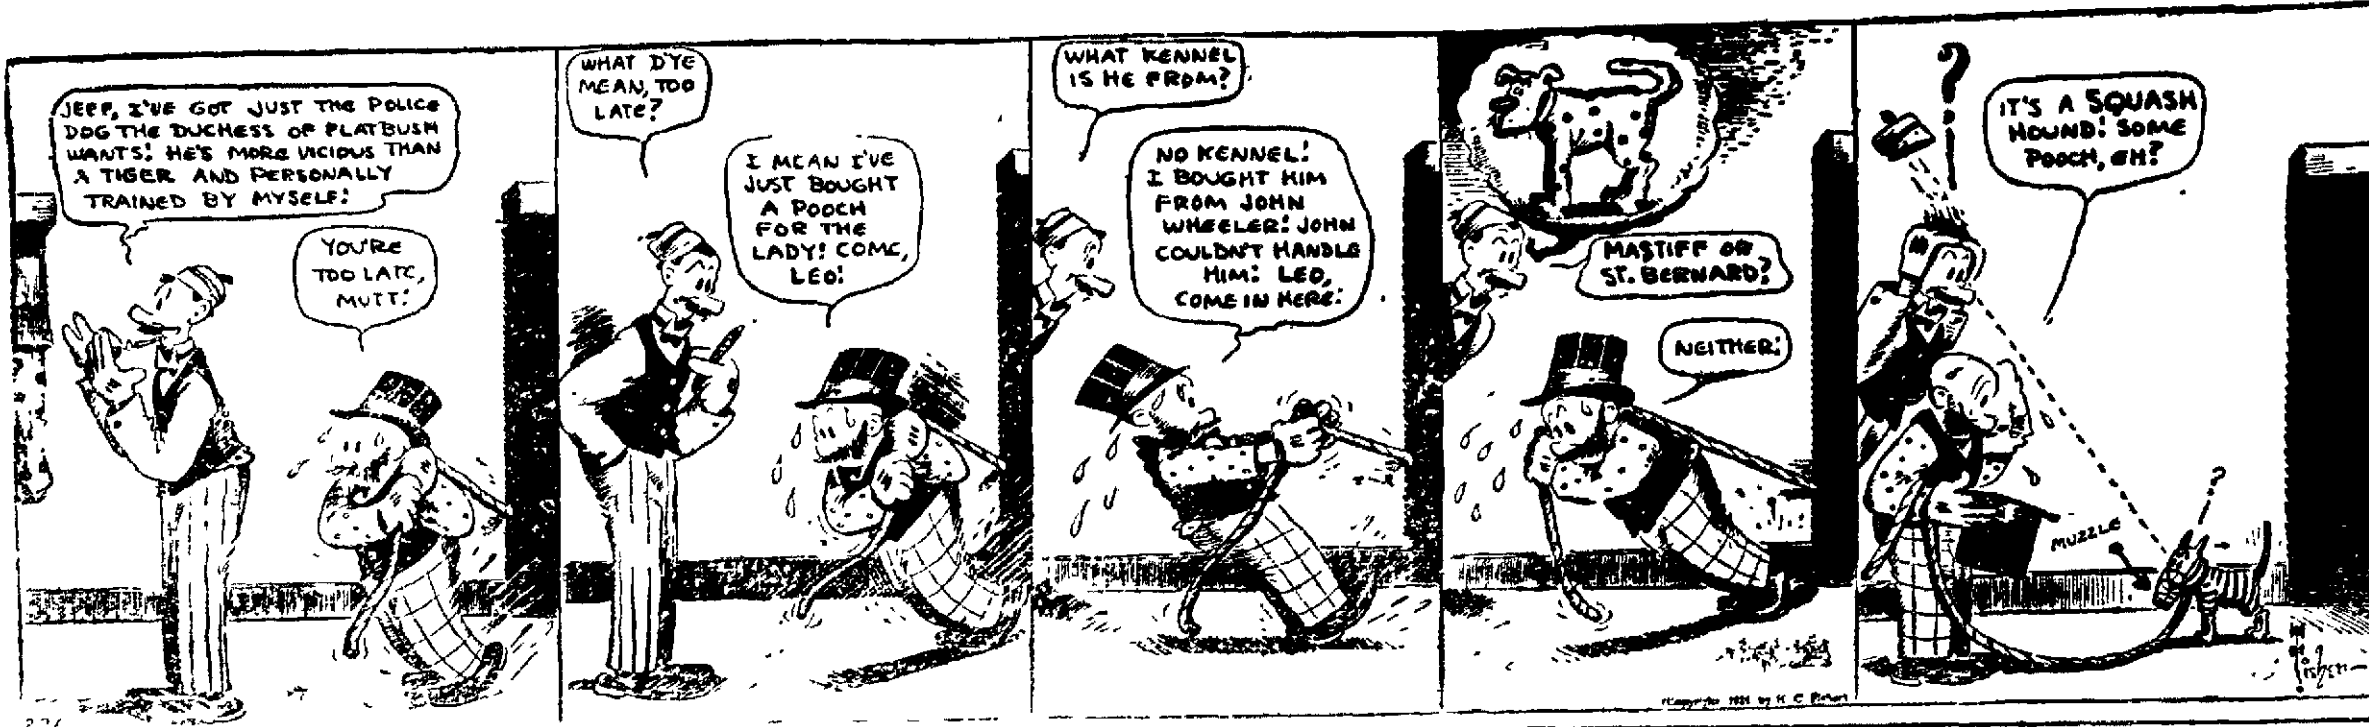

Speaking of the proposed rye whiskey distillery, a Bahamas newspaper remarks that if the Bahamas can supply the unsatisfied demand for rye whiskey, the colony may once again have a monopoly and attract business with revenue of \$5 for each proof gallon distilled. Also it may again be able to insist that buyers take Scotch along with the rye. If this happens the paper suggests that the duty on imported whiskeys be raised to \$6 again, and kept there.

A year ago the tariff on liquor was reduced from \$6 to \$3 a case in order to stop the decline in the trade. Then the reduction it is claimed the colony lost more than \$50,000 in revenue. A proposal now before the legislature calls for a further reduction to \$1 a case.

L. W. Young, member of the assembly and one of those strongly favoring reduction of the duties, said that when the members of the House realized how much the liquor business had changed the internal affairs of the colony, civic, social and almost religious, it was time they should consider very seriously how they would dispose of the question. Not only had there been an increase in the number of employees and salaries in the colony's civil establishment, but huge sums of money had been spent upon public improvements and utilities, making commitments that were going to involve huge expenditures for many years to come.

Lima Joins Nation In Honoring Hero Dead

STUDENT IS ARRESTED IN FRANKS CASE

Millionaire's Son Quizzed as Suspect in Mystery Murder

GLASSES LEAD TO SEIZURE

Believed Owner of Spectacles Found at Death Scene

CHICAGO — (United Press) — Nathan Leopold, 19, son of a millionaire, was held for questioning at the state's attorney's office today in connection with the kidnaping and murder of 14-year-old Robert Franks.

Leopold, a law student at the University of Chicago, and master of 15 languages, admitted losing a pair of glasses similar to those found near the body of the slain youth. He was taken into custody after trading sale of the glasses to a large optical firm.

Under recent examination, Leopold told police he had often visited the scene where young Franks' body was found, that he had been there a few days before the murder; that he owned a typewriter similar to the one with which the letter demanding \$10,000 was written; but he denied any knowledge of the crime.

Richard Leach, son of the late vice president of Sears-Roebuck and Co. and friend of Leopold, was also held in custody at the state's attorney's office. He was questioned regarding his movements on the day of the murder.

LEOPOLD'S HISTORY — Leopold, who is a scholar of extraordinary ability, was calm throughout questioning. He talked freely on many subjects, discussing his religious beliefs, and religion, with his captives.

He was somewhat vague in his statements regarding his movements on the day of the kidnaping, but he was not asked.

He was given a letter which was written in English, and which was written in every detail of the case.

Leopold was given a good letter to write, and he wrote a letter to his father, which was written in English, and which was written in every detail of the case.

Leopold said he knew the Franks family by reputation and had known the slain youth. He said he attended Harvard school before entering the University. It was the Harvard school which young Franks was attending.

FLIERS READY TO RESUME TRIP

World Aviators Expect to Make Hop off Tomorrow

KASHIYAGARA, Japan — (Associated Press) — The American round-the-world fliers, still hope to get away tomorrow on the next leg of their flight, though possibly they will not be able to do so until Sunday. They are expected to make two jumps. The day before, they were going to Kushimoto, but they were forced to stop at Kagoshima, where they stopped in Japan, before leaving.

The aviators today witnessed the fatal fall of one of the Japanese naval base. The flier, piloting a Japanese naval plane, was up some distance when the plane's fuel tank exploded and the machine crashed on the shore of the harbor.

The American planes have been under way for four days of extensive overhauls. New engines and new parts are being put in place and the fliers are ready for the jump.

The flier plane, flown by Lieutenant Lowell H. Smith, acting commander, was pronounced fit today for a test flight. On Sunday, he had as a passenger the commander of the Kasunigaura base, Third Army American destroyers, which will be stationed between here and Shanghai to aid the fliers in case they are taking their places along the Japanese coast line and in a chain of the fliers.

MACREADY'S BABY

Lieutenant John A. Macready, army ace, has something else to think about now besides transcontinental flights. There is a little daughter to claim his attention these days. Her name is Jo-Ann. Here she is in her daddy's arms.

KIWANIS SINGERS IN EISTEDDFOD

125 Members Leave Lima Friday for Youngstown

Members of the Lima Kiwanis Harmonic Club are on their way to Youngstown, where they will sing in competition in the eisteddfod at that place Saturday.

MAN IS INJURED

Main-st Worker Struck by Traction Car, Head Cut

A G. Gilbert, of Ada, employed on the Frobose gang working on S. Main-st, sustained cuts about his head and slight body bruises Thursday afternoon when he was struck by a city street car in charge of C. W. Griffith.

The man is said by witnesses to have stepped in front of the car which was moving at a slow rate of speed. He was taken to a doctor's office where it was reported his injuries were slight.

STONE TO BE PROVIDED FOR TOWNSHIP ROUTES

Arrangements for the distribution of stone among townships in the county were made by commissioners in a series of conferences with township trustees Thursday.

Trustees were asked what roads in their districts needed repairs, and what amount of stone will be needed.

Trustees are taking care of a number of roads themselves and are improving them in part with stone and gravel furnished by the county.

Improvement of the main county roads, however has been taken over by the county commissioners.

Paralyzing of Traffic Threatened by Non-improvement

Serious delay in the completion of the Main-st paving may be seen unless new foundations are installed immediately under the Lima City Street Railway Co. tracks in S. Main-st, C. A. Bingham, city manager, asserted Friday.

Work on the foundations was to have been completed by April 1, 1923, Bingham said in pointing out that this matter is definitely provided for by the franchise granted the company.

Excavation of portions of S. Main-st along the west side of the street railway tracks where the foundations have not been installed, is nearly completed and in a few days the curbing and street foundation will be started.

It had been planned to lay the new pavement over the west half of the street and over the car tracks. Because of the failure of the company to place their foundation it will be impossible to lay the bricks at the car tracks, Bingham said.

Contractors working on the street issued an ultimatum along with that of the city. Briefly the plan of operation is as follows:

Street pavers will complete the west side of the street up to within 18 inches of the car tracks. At that point the street foundation will end. UP TO COMPANY

The pavement will be completed to the Pennsylvania tracks and then will be started on the east side of the street going south toward the Ottawa river.

It will be up to the street car company to complete their foundation work between the time the pavers leave S. Main-st and return if they are to use the east side of the street for their trucks and machinery.

If the street railway delays the work until after the pavers have laid the new base to within 18 inches of the car tracks on the east side of the street the newly paved street will be closed to them and they will be compelled to use the car tracks for the hauling of dirt and supplies and the operation of necessary machinery.

This will practically paralyze street car traffic on S. Main-st, it is pointed out, as one car track must be kept open at all times if service is to be maintained and the small amount of space left would be insufficient for the amount of work to be done.

Several notices have been sent the company warning them as to the results of delay on their part, Bingham said, but to date very little effort has been made to comply with promises made to the city.

Franchise granted the company also provided for the removal of wood poles and the installation of iron posts along Main-st. No effort has been made by the company to comply with these provisions, Bingham asserts.

Formal ultimatum from contractors working on the Main-st pavement and the city has been served on local officers of the street railway company and upon Thomas Newhall, representative of the Drexel interests in Philadelphia, Bingham said.

It is believed at city hall that the street railway company will complete their work at once rather than be compelled to tie up transportation on S. Main-st later in the summer.

STONE TO BE PROVIDED FOR TOWNSHIP ROUTES

Arrangements for the distribution of stone among townships in the county were made by commissioners in a series of conferences with township trustees Thursday.

Trustees were asked what roads in their districts needed repairs, and what amount of stone will be needed.

Trustees are taking care of a number of roads themselves and are improving them in part with stone and gravel furnished by the county.

Improvement of the main county roads, however has been taken over by the county commissioners.

MISSISSIPPI DEMOCRATIC CONVENTION IN SESSION

JACKSON, Miss. — The state Democratic convention met today to name national delegates, select a state executive committee and a national committee and committee women.

Seventy-two of the 82 counties at the recent county conventions favored the nomination of Senator Oscar Underwood of Alabama and four supporters of Senator Pat Harris of Mississippi for the presidential nomination. The other county favored a Mississippi first and Underwood second.

BETS PLACED ON LOVE BATTLE

Broadway Makes Sporting Event of Tinney-Wilson Case

UP IN COURT TOMORROW

Comedian Faces Charge of Attack on Chorus Girl

NEW YORK — (United Press) — Election betting faded into the background as Broadway dug down into its pockets and shed its silk hose today to wager its last son on the third round of the great Tinney-Wilson love battle.

Oddly were even that Imogene, Polles beauty and known as "the loveliest girl on Broadway" will appear in West Side court tomorrow to press charges against Tinney, popular blackface comedian and described by Miss Wilson's lawyer as a man who has a "tail of malediction" across the country.

Broadway at first, simply refused to believe that Imogene would "go thru with it."

"That guy Frank Tinney can talk a damn out of anything," the wise ones said.

But Imogene assured her friends she was far past the talking stage. "Bet all the money you've got," she advised an admirer. "I'll be there if I can walk."

FACES HATE WIFE
There was no word from Tinney. He was last seen facing an irate wife in a taxi cab as he walked out of court yesterday, free on \$2,500 bail to appear for hearing tomorrow on a charge of feloniously assaulting the chorus girl, "Bubbles" of love notes, who told police Tinney "knocked me cold," after a disagreement in her uptown apartment.

But Broadway, determined not to be serious, made a sporting event of it all and backed the scrapmen according to hunches after consulting rabbis' feet and all the hunch-backed old negro women in Harlem.

One enterprising young man of the Rialto, even was reported to have started a hook, with no less than a dozen different wagers on the great love match.

Whatever the outcome is, there can be no doubt the battle so far has provided Tinney with more action than he ever has gotten from any single act he appeared in.

So far the comedian has been in five jails, faced one bitter slaying in court, been spurned and outwitted by the girl he proposed to hold in the palm of his hand, and got, only his wife knows, how many lectures on conduct. In addition, he may face a \$100,000 civil suit unless Miss Wilson changes her mind.

Imogene has retained a lawyer to look out for her interests and served notice the suit will be filed. Summons will be served on Tinney when he appears in West Side court tomorrow, she said.

Charges and counter-charges flow thick and fast today, as the two fighters prepared for the round to take place tomorrow. Mrs. Tinney who so far has been an interested but unempathetic spectator, said Imogene threatened to kill her three weeks ago, motoring to the Tinney home on Long Island at 3 a. m., creating a disturbance.

The trouble with Imogene, Tinney's wife said, was that "she believed everything Frank told her."

No woman, Mrs. Tinney indicated, should ever do that.

RURAL TRAINED SCHOOL TEACHERS PROPOSED TO CHANGE COUNTY SYSTEM

"The county schools, both elementary and high, must be ruralized," says S. K. Mardis, head of the department of rural education, Ohio university, in a letter to C. A. Arganbright, superintendent of county schools.

Mardis is of the opinion that there are too many city-trained teachers in our county schools with the result that the students do not receive the right sort of teaching.

Rural-trained teachers understand the problems of the rural schools and should be given the preference over the city-trained teachers for positions in the schools, Mardis says.

Nearly half of the teachers in Ohio at the present time are teaching in the county school districts, says Mardis. Practically half of the pupils enrolled in the elementary public schools of the state are enrolled in the county school districts, for each the county and city schools making the teachers and pupils practically the same. A large number of rural teachers are those who have been trained with city schools, Mardis continues. They, he says, should be replaced with teachers who can meet the needs of the rural school.

SMITHY IS DOOMED
LONDON — The inspiration for Longfellow's familiar verses—the village smithy in St. Mary Cray, a Kentish village—is doomed to be torn down. The smithy became known to the American bard when he visited the English postbox, Eliza Cook. The "spreading chestnut tree" was felled long ago because it darkened neighboring houses.

LONDON'S CHINATOWN IS VANISHING IN POLICE WAR

LONDON—Chinatown, or that part of the east end of London long the haunt of Orientals and known only to the majority of Britons through the eye of the novelist, is rapidly vanishing thru the activity of the police.

Magistrate J. A. R. Cairns recently spoke in this regard as follows: "Chinatown, so far as its old associations and vices are concerned, will very soon have passed away. As to its 'romance' there isn't any left; there is nothing now but dirt and squalor."

"In clearing the place of its drug-traffickers the police have done a fine piece of work. Quietly, but very thoroughly, they have gradually eliminated the master-minds of the 'dope' gangs, and those who worked under them are now unable to carry on their terrible trade."

HIGHER PRICES ON HOGS EXPECTED

Allen-co Farmers May Benefit. Farm Agent Says

Allen-co producers of pork will probably get better prices for their products next fall than they have in the past year or so, says H. J. Ridge, county farm agent, who bases his opinion on statements made by the United States Department of Agriculture and rural economists of Ohio State University.

The country over, according to the figures from Washington, there was a 10.8 per cent decrease in the number of breeding sows on farms on April 1, 1921, as compared with April 1, 1922. For Ohio the decrease has been estimated at 12 per cent.

The decline in breeding has been greatest in the corn belt. On North Dakota farms, however, the number of breeding sows on farms increased 10 per cent. In five states farther west, there were small increases.

Along the Atlantic seaboard and in most of the southern states, the declines were less than in the corn belt, and less than the average for the United States.

Hog receipts recently have been unusually high. For the three months ending March 1924, receipts were 11.5 per cent higher than for the corresponding months of 1923. In March, 1924, receipts were 25.2 per cent above those of March for the five-year average from 1919-1923.

Only the export trade and a good domestic demand, say the university economists, have kept hog prices from going even lower than they have been the past few months.

RESULT OF EXAM IS DELAYED

Appointment of Children's Home Heads is Held up

Appointment of the new superintendent and matron of the Allen-co Children's Home is still held up by non-arrival of the eligible list created by a state civil service examination.

State inspectors took the examination papers to Columbus to grade. They are also to make a personal investigation of the qualifications of various candidates.

In the meantime, Mrs. Capitola Walters is still in charge of the home, drawing pay only as matron, however. Attempts of trustees to pay her salary as superintendent since the death of Superintendent Walters have been blocked by county Auditor C. R. Phillips.

Phillips declares that while Mrs. Walters is undoubtedly performing services of both positions, he must follow the law and not the dictates of sympathy.

Successor to Mrs. C. C. Kitts, president of the board of trustees, is being held up by county commissioners. It is believed, until after the arrival of the eligible list.

Superintendent and matron, according to law, must be selected from the three couples having the highest standings.

Mrs. Kitts' resignation as trustee, after three years of service, was brought about she declares thru desire to avoid controversy over pay-roll, and because the position requires too much of her time.

PLAGUE DYING OUT
JOHANNESBURG, South Africa—Plague, which has ravaged this part of South Africa, will gradually die out with the advent of cold weather, health officers predict. Since Dec. 16, 21 whites and 172 natives have died from the plague.

AUTO RACE ON AT INDIANAPOLIS

22 Cars Get Away in the 500-Mile Sweepstakes

140,000 IN ATTENDANCE

Murphy, Hartz and Milton in Front of Starters

(BULLETIN) MOTOR SPEEDWAY, INDIANAPOLIS — (United Press) — With exhausts thundering a deafening chorus that deafened the shouts from 140,000 spectators, twenty-two cars got away at 10 o'clock today on the 500-mile sweepstakes automobile race.

The cars lined up three abreast on the straight-away for the start. They made one lap behind Lee Petty in the Cole peacemaker and passed the judge's stand at a terrific speed. The long 500-mile grind was on.

Jimmy Murphy, Harry Hartz and Tommy Milton in the front row of the starters. The veteran drivers were given a big ovation as they took off.

Weather conditions for the race were the best and speedway officials predicted the record for the track would be broken today.

Joe Boyer led the first lap. Murphy was second, and Hartz third. The three cars were fighting desperately for the lead.

Hunt's Barber-Warlock special had trouble starting but got away before being lapped.

Jimmy Murphy had gained the lead at the second lap with Boyer and Hill neck and neck behind him.

Boyer's time for the first lap was 1:31:47, an average of 98.39 miles an hour. It was a record for the first lap of the race. On the third lap Murphy was increasing his lead. Hill was second, Boyer, third, Hartz fourth and Cooper fifth.

TAX COLLECTIONS SATISFACTORY

Average of \$2,000 a Day Being Received Here Now

Tax collections for the last half of the present year, which commenced during the past week show an average of \$2,000 daily paid to the county.

While the amount is satisfactory, Harry E. Botkins, treasurer, declares he points out that with only three weeks to collect an unusually large duplicate, money will have to roll in in larger amounts commencing Monday.

The anticipated collections will exceed one and a quarter million dollars, he says, which means that an average of more than \$60,000 must be paid in daily during the next three weeks.

Botkins will make a swing around the county, to receive collections in outlying towns, before the last date for making payment.

June 29 is the date fixed by law as the final date for paying taxes, without penalty.

L. Earl Ludwig, attorney, was the principal speaker at the Memorial Day ceremonies held in Harrod Friday.

OHIO POWER CO. PROPOSES CHANGES IN NEW BUILDING

Several changes in the plans for the new Ohio Power Co. building to be erected in N. Elizabeth-st have been ordered by the company architects and the starting of work will be delayed a week or 15 days, it was announced at the offices here.

The changes have been made with an eye to the future development of the company here and will be so arranged that needed additions can be made from time to time as necessary, it was stated.

ELMER LILLIE DIES AT HIS HOME IN CHICAGO

Elmer Y. Lillie, son of Mrs. Helen Lillie, of 333 S. Central-av, died suddenly Wednesday night at his home in Chicago, according to word received here by relatives. Death was due to heart trouble.

The body will be accompanied to Lima Sunday and be taken to the home of his sister, Mrs. Paul Cumberland, on S. Central-av.

The deceased had just returned to Chicago after attending the funeral of his brother-in-law, Paul Cumberland. He leaves, in addition to his widow, a mother and sister.

COOLIDGE FIRM ON COURT PLAN

Voices Opposition to Pepper World Tribunal Program

WASHINGTON — (United Press) — President Coolidge today repudiated proposals for American adherence to the world court, that depart from the Harding-Hughes plan.

Speaking at the Memorial Day exercises at Arlington national cemetery, the president came out flatly for adherence of the United States to the protocol of the permanent court of international justice, with the conditions laid down by the late President Harding.

"His suggestion has already had my approval," Mr. Coolidge said. "I should not oppose other reservations," the president said, "but any material changes which would not probably receive the consent of the many other nations, would be impracticable."

His statement was interpreted as indicating his firm opposition to the plan of Senator Pepper, Pennsylvania, for American entrance to the court plan which has been recommended to the senate.

Standing in the ranks of the old and young veterans of three American wars, the Civil, Spanish-American and World War, the president recently passed a wealth of flowers on the tomb of the Unknown Soldier before the great Arlington amphitheater. "I believe in the maintenance of an army and navy, not for aggression, but for defense," the president said. "Security and order are our most valuable possessions. They are cheap at any price. But I am opposed to every kind of military aggrandizement and to all forms of competitive armaments."

U. S. TO SOON EAT ALL IT GROWS

Population Increasing 1,600,000 Each Year, Report Shows

CHICAGO — (United Press) — With America's population increasing 1,600,000 a year, in ten years more it will take all the country can produce to feed the population, according to the Sears-Robuck Agricultural Foundation.

"If agricultural production does not increase," says the report, "and if domestic consumption per capita remains as high as the present time, all of the present exportable food surplus will be needed here. In addition, the surpluses in cotton and tobacco will be cut down from 25 to 40 per cent of the present amount."

Under existing conditions 49 per cent of the cotton and one-third of the tobacco crop are sold abroad. The average in these two commodities, however, is higher than in the majority of food products. Last year 15 per cent of the wheat grown in America was exported, one and five-tenths per cent of the corn, 1 per cent of the oats, 8 per cent of the barley, 51 per cent of the rice, and 15 per cent of the rice. Taking in to account the relative importance of the crops, the report states that only 8 per cent of the total was grown for export.

The improved land area in the country is in no way keeping pace with the increasing population, the report points out. It states that in 1920 many of the corn belt states reported a smaller area of improved land than they reported ten years before.

Only 5 per cent was added to the improved land area of the country between 1910 and 1920. This, the report says, was practically no gain when compared with the 50-year period before when 158 per cent increase was recorded in the amount of land area. And, it pointed out, the greatest increase in population came during the same period, the 1910 to 1920 period.

The report predicts America's population in ten years will be between 125 and 130 million and it has no chance of an increase in farm areas and but little chance of an increase in production.

ALFRED LILLIE DIES AT HIS HOME IN CHICAGO

Alfred Lillie, son of Mrs. Helen Lillie, of 333 S. Central-av, died suddenly Wednesday night at his home in Chicago, according to word received here by relatives. Death was due to heart trouble.

The body will be accompanied to Lima Sunday and be taken to the home of his sister, Mrs. Paul Cumberland, on S. Central-av.

The deceased had just returned to Chicago after attending the funeral of his brother-in-law, Paul Cumberland. He leaves, in addition to his widow, a mother and sister.

BETS PLACED ON LOVE BATTLE

Broadway Makes Sporting Event of Tinney-Wilson Case

UP IN COURT TOMORROW

Comedian Faces Charge of Attack on Chorus Girl

NEW YORK — (United Press) — Election betting landed into the background as Broadway dug down into hip pockets and sheer silk hose today to wager its last son on the third round of the great Tinney-Wilson love battle.

Odds were even that Imogene Follies beauty and known as "the loveliest girl on Broadway" will appear in West Side court tomorrow to press charges against Tinney, popular blackface comedian and described by Miss Wilson's lawyer as a man who has a trail of maidens women across the country.

Broadway at first, simply refused to believe that Imogene would "go thru with it."

"That son of a Frank Tinney can talk a damn out of anything," the wise ones said.

But Imogene assured her friends she was far past the talking stage. "Bet all the money you've got," she advised an admirer. "I'll be there if I can walk."

FACES IRATE WIFE

There was no word from Tinney. He was last seen facing an irate wife in a taxi cab as he walked out of court yesterday, free on \$2,500 bail to appear for hearing tomorrow on a charge of feloniously assaulting the chorus girl "Bubbles" of love notes, who told police "Tinney 'knocked me cold' after a disagreement in her up-town apartment."

But Broadway, determined not to be serious, made a sporting event of it all and backed the scrapping according to benches after consulting rabbits' feet and all the hunch-backed old negro women in Harlem.

One enterprising young man of the Rialto, even was reported to have started a book, with no less than a dozen different wagers on the great love match.

Whatever the outcome is, there can be no doubt the battle for Tinney has provided Tinney with more action than he ever has gotten from any single act he appeared in.

So far the comedian has been in five jails, faced one bitter flying in court, been spurned and outwitted by the girl he proposed to hold in the palm of his hand, and lost only his wife knows, how many lectures on conduct. In addition, he may face a \$100,000 civil suit unless Miss Wilson changes her mind.

Imogene has retained a lawyer to look out for her interests and served notice the suit will be filed. Summons will be served on Tinney when he appears in West Side court tomorrow, she said.

Charges and counter-charges flow thick and fast today, as the two fighters prepared for the round to take place tomorrow. Mrs. Tinney who so far has been an interested but unsympathetic spectator, said Imogene threatened to kill her three weeks ago, motoring to the Tinney home on Long Island at 3 a. m., creating a disturbance.

The trouble with Imogene, Tinney's wife said, is that "she believed everything Frank told her."

No woman, Mrs. Tinney indicated, should ever do that.

RURAL TRAINED SCHOOL TEACHERS PROPOSED TO CHANGE COUNTY SYSTEM

"The county schools, both elementary and high, must be ruralized," says S. K. Mardis, head of the department of rural education, Ohio university, in a letter to C. A. Arganbright, superintendent of county schools.

Mardis is of the opinion that there are too many city-trained teachers in our county schools with the result that the students do not receive the right sort of teaching. Rural-trained teachers understand the problems of the rural schools and should be given the preference over the city-trained teachers for positions in the schools, Mardis says.

Nearly half of the teachers in Ohio at the present time are teaching in the county school districts, says Mardis. Practically half of the pupils enrolled in the elementary public schools of the state are enrolled in the county school districts, for each the county and city schools making the teacher and pupil ratio practically the same. A large number of rural teachers are those who have been trained with city ideas, Mardis continues. They, he says, should be replaced with teachers who can meet the needs of the rural school.

SMITHY IS DOOMED

LONDON — The inspiration for Longfellow's familiar verses—the village smithy in St. Mary Cray, a Kentish village—is doomed to be torn down. The smithy became known to the American bard when he visited the English postess, Eliza Cook. The "spreading chestnut tree" was felled long ago because it darkened neighboring houses.

LONDON'S CHINATOWN IS VANISHING IN POLICE WAR

LONDON—Chinatown, or that part of the east end of London long the haunt of Orientals and known only to the majority of Britons through the eye of the novelist, is rapidly vanishing through the activity of the police.

Magistrate J. A. R. Cannon recently spoke in this regard as follows: "Chinatown, so far as its old associations and vices are concerned, will very soon have passed away. As to its 'romance' there isn't any left; there is nothing now but dirt and squalor."

"In clearing the place of its drug traffickers, the police have done a fine piece of work. Quietly, but very thoroughly, they have gradually eliminated the master-minds of the 'dope' gangs, and those who worked under them are now unable to carry on their terrible trade."

HIGHER PRICES ON HOGS EXPECTED

Allen-co Farmers May Benefit, Farm Agent Says

Allen-co producers of pork will probably get better prices for their products next fall than they have in the past year or so, says H. J. Ridge, county farm agent, who bases his opinion on statements made by the United States Department of Agriculture and rural economists of Ohio State University.

The country over, according to the figures from Washington, there was a 10.8 per cent decrease in the number of breeding sows on farms on April 1, 1923, as compared with April 1, 1922. For Ohio the decrease has been estimated at 12 per cent.

The decline in breeding has been greatest in the corn belt. On North Dakota farms, however, the number of breeding sows on farms increased 10 per cent. In five states farther west, there were small increases. Along the Atlantic seaboard and in most of the southern states, the declines were less than in the corn belt, and less than the average for the United States.

Hog receipts recently have been unusually high. For the three months ending March 1923, receipts were 11.5 per cent higher than for the corresponding months of 1922. In March, 1923, receipts were 25.2 per cent above those of March for the five-year average from 1919-1922.

Only the export trade and a good domestic demand, say the university economists, have kept hog prices from going even lower than they have been the past few months.

RESULT OF EXAM IS DELAYED

Appointment of Children's Home Heads is Held up

Appointment of the new superintendent and matron of the Allen-co children's home is still held up by non-arrival of the eligible list created by a state civil service examination.

State inspectors took the examination papers to Columbus to grade. They are also to make a personal investigation of the qualifications of various candidates.

In the meantime, Mrs. Capitola Walters is still in charge of the home, drawing pay only as matron, however. Attempts of trustees to pay her salary as superintendent since the death of Superintendent Walters, have been blocked by county Auditor C. R. Phillips.

Phillips declares that while Mrs. Walters is undoubtedly performing services of both positions, he must follow the law and not the dictates of sympathy.

Successor to Mrs. C. C. Kitts, president of the board of trustees, is being held up by county commissioners, it is believed, until after the arrival of the eligible list.

Superintendent and matron, according to law, must be selected from the three couples having the highest standings.

Mrs. Kitts' resignation as trustee, after three years of service, was brought about she declares thru slings in the county school districts.

PLAGUE DYING OUT

JOHANNESBURG, South Africa—Plague, which has ravaged this part of South Africa, will gradually die out with the advent of cold weather, health officers predict. Since Dec. 16, 21 whites and 172 natives have died from the plague.

GRANT'S

AUTO RACE ON AT INDIANAPOLIS

22 Cars Get Away in the 500-Mile Sweepstakes

140,000 IN ATTENDANCE

Murphy, Hartz and Milton in Front of Starters

(BULLETIN)

MOTOR SPEEDWAY, INDIANAPOLIS — (United Press) — With exhausts thundering, a deafening chorus that deafened the shouts from 140,000 spectators, twenty-two cars got away at 10 o'clock today on the 500-mile sweepstakes automobile race.

The cars lined up three abreast on the straight-way for the start. They made one lap behind Lee Petty in the 1921 peer-maker, and passed the judge's stand at a terrific speed. The long 500-mile grind was on.

Jimmy Murphy, Harry Hartz and Tommy Milton in the front row of the starters. The veteran drivers were given a big ovation as they took off.

Weather conditions for the race were the best and speedway officials predicted the record for the track would be broken today.

Joe Boyer led the first lap. Murphy was second, and Hartz third. The three cars were fighting desperately for the lead.

Hunt's Barber-Warneck special had trouble starting but got away before being lapped.

Jimmy Murphy had gained the lead at the second lap with Boyer and Hill neck and neck behind him.

Boyer's time for the first lap was 1:31.47, an average of 98.29 miles an hour. It was a record for the first lap of the race. On the third lap Murphy was increasing his lead. Hill was second, Boyer, third, Hartz fourth and Cooper fifth.

TAX COLLECTIONS SATISFACTORY

Average of \$2,000 a Day Being Received Here Now

Tax collections for the last half of the present year, which commenced during the past week show an average of \$2,000 daily paid to the county.

While the amount is satisfactory, Harry E. Botkins, treasurer, declares he points out that with only three weeks to collect an unusually large duplicate, money will have to roll in larger amounts commencing Monday.

The anticipated collections will exceed one and a quarter million dollars, he says, which means that an average of more than \$60,000 must be paid in daily during the next three weeks.

Botkins will make a swing around the county, to receive collections in outlying towns, before the last date for making payment.

June 20 is the date fixed by law as the final date for paying taxes, without penalty.

L. Earl Ludwig, attorney, was the principal speaker at the Memorial Day ceremonies held in Harrod Friday.

ELMER LILLIE DIES AT HIS HOME IN CHICAGO

Elmer Y. Lillie, son of Mrs. Helen Lillie, of 322 S. Central-av, died suddenly Wednesday night at his home in Chicago, according to word received here by relatives. Death was due to heart trouble.

The body will be accompanied to Lima Sunday and be taken to the home of his sister, Mrs. Paul Cumberland, on S. Central-av.

The deceased had just returned to Chicago after attending the funeral of his brother-in-law, Paul Cumberland. He leaves, in addition to his widow, a mother and sister.

U. S. TO SOON EAT ALL IT GROWS

Population Increasing 1,600,000 Each Year, Report Shows

CHICAGO — (United Press) — With America's population increasing 1,600,000 a year, in ten years more it will take all the country can produce to feed the population, according to the Sears-Roebuck Agricultural Foundation.

"If agricultural production does not increase," says the report, "and if domestic consumption per capita remains as high as the present time, all of the present exportable food surplus will be needed here. In addition, the surpluses in cotton and tobacco will be cut down from 25 to 40 per cent of the present amount."

Under existing conditions 48 per cent of the cotton and one-third of the tobacco crop are sold abroad. The average in these two commodities, however, is higher than in the majority of food products. Last year 19 per cent of the wheat grown in America was exported, one and five-tenths per cent of the corn, 1 per cent of the oats, 8 per cent of the barley, 51 per cent of the rice, and 15 per cent of the peas. Taking in to account the relative importance of the crops, the report states that only 8 per cent of the total was grown for export.

The improved land area in the country is in no way keeping pace with the increasing population, the report points out. It states that in 1920 many of the corn belt states reported a smaller area of improved land than they reported ten years before.

Only 5 per cent was added to the improved land area of the country between 1910 and 1920. This, the report says, was practically no gain when compared with the 50-year period before when 128 per cent increase was recorded in the amount of the land.

And, it pointed out, the greatest increase in population came during the same period during the 1910 to 1920 period.

The report predicts America's population in ten years will be between 125 and 130 million and it sees no chance of an increase in farm areas and but little chance of an increase in production.

OHIO POWER CO. PROPOSES CHANGES IN NEW BUILDING

Several changes in the plans for the new Ohio Power Co. building to be erected in N. Elizabeth-st have been ordered by the company architects and the starting of work will be delayed a week or 10 days, it was announced at the offices here.

The changes have been made with an eye to the future development of the company here and will be so arranged that needed additions can be made from time to time as necessary, it was stated.

COOLIDGE FIRM ON COURT PLAN

Voices Opposition to Pepper World Tribunal Program

WASHINGTON — (United Press) — President Coolidge today repudiated proposals for American adherence to the world court, that depart from the Harding-Hughes plan.

Speaking at the Memorial Day exercises at Arlington national cemetery, the president came out flat-footedly for adherence of the United States to the protocol of the permanent court of international justice, with the conditions laid down by the late President Harding.

"His suggestion has already had my approval," Mr. Coolidge said. "I should not oppose other reservations," the president said, "but any material changes which would not probably receive the consent of the many other nations, would be impracticable."

His statement was interpreted as indicating his firm opposition to the plan of Senator Pepper, Pennsylvania, for American entrance to the court plan which has been recommended to the senate.

Standing in the ranks of the old and young veterans of three American wars, the Civil, Spanish-American and World War, the president reverently placed a wreath of flowers on the tomb of the Unknown Soldier before the great Arlington amphitheater. "I believe in the maintenance of an army and navy, not for aggression, but for defense," the president said. "Security and order are our most valuable possessions. They are cheap at any price, but I am opposed to every kind of military aggrandizement and to all forms of competitive armaments."

DISARMAMENT

A possible keynote for another attempt at further international disarmament, was struck by the president.

"The ideal would be for nations to become parties to mutual covenants limiting their military establishments and making it obvious that they are not maintained to menace each other. This ideal should be made practical as far as possible."

Running thru Mr. Coolidge's speech was the theme that just as the individual and state must make some sacrifice for the common benefit, so must a nation sacrifice something for international security.

"Only one conclusion appears to me possible," Mr. Coolidge said. "We shall not promote our welfare by a narrow and short-sighted policy. We can gain nothing by any destruction of government or society."

"It is only by surrendering a certain amount of our liberty, only by taking on new duties and assuming new obligations that we make that progress which we characterize as civilization."

"We cannot take a step in advance of this kind without assuming certain obligations. Here again, if we receive anything, we must surrender something. We may as well derive the question candidly and if we are willing to assume these new duties in exchange for the benefits which would accrue to us, let us say so. If we are not willing, let us say that. We can accomplish nothing by taking a doubtful or ambiguous position."

"We are not going to be able to avoid meeting the world and bearing our part of the burden of the world. We must meet these burdens and overcome them, or they will meet us and overcome us. For my part, I desire my country to meet them without evasion and without fear in an upright, down-

BUSINESS MAN KILLED IN AUTOMOBILE ACCIDENT

CINCINNATI — Albert Thorne, 38, cashier of the General Electric Co., Schenectady, N. Y., was killed here early today in an automobile accident. His neck was broken when he was thrown from an automobile, which crashed into a loaded wagon.

John E. Doran, Cincinnati electrical engineer for the Union Gas and Electric Co., driver of the automobile, was arrested on the spot. Police said Doran asserted he was unable to see the wagon.

The automobile was wrecked. Cakes of ice were hurled from the wagon into the street. Two men on the wagon were bruised.

Thorne was here on business, and Doran had attended a boxing exhibition at Fort Thomas last night and were on their way to Thorne's hotel when the accident occurred.

Helen and Hazel Spiller of Lima are guests at the home of Mr. and Mrs. R. W. Poling, 807 Rice-av.

FORTUNE OFFERED FOR HELICOPTER

British Government Sponsoring Aerial Improvement
\$250,000 FOR WINNER
American Inventors Present Plans Air Navigation

LONDON—(United Press)—In a carefully guarded room in the British Air Ministry Building here, officers are poring over plans that may revolutionize aerial navigation—and that may bring a \$250,000 prize to an American inventor.

They are sorting and surveying the preliminary proposals of twenty competitors from a dozen nations—for the Air Ministry's prize of 50,000 pounds for a successful "helicopter"—that is, a non-buoyant machine that can fly straight up and down in a direct line; hover for half an hour like a hummingbird at one place in the air; maneuver over a prescribed course in the air—say, flying along the three sides of an imaginary triangle; and then return and descend from a height of 500 feet in a straight line and with a dead engine.

Henry Berliner and his son of Washington, D. C., are known to be American contestants, although the Air Ministry declines at present to announce the names of any contestants. The reason for secrecy is that the officials wish to study the plans of every contestant most carefully in order to become convinced that there is a real probability of somebody succeeding, before announcing a definite date for the actual contest and the names of those who will participate.

The tests will probably be held on a flying field near London.

Helicopter is derived from two Greek words meaning "screw" and "wing." Literally, the helicopter does just "screw" its way up into the air. Just as the propellers of a ship or an airplane "screw" the craft horizontally thru the water or air, so that helicopter, with propellers underneath or on top, or both, is supposed to bore its way vertically thru the air, and, by the same mechanism, to hold its position steadily in one place in the air—yet, by another set of propellers, to be able to fly horizontally, as an airplane does, but with much more control than any plane has yet attained.

It's a pretty big order. What happens in case of engine trouble has, so far, only been answered one way. It's worth \$250,000 to the person who can give another answer—and the British Air Ministry will consider the information well worth the money for a helicopter that can deliver the goods has infinite possibilities in peaceful development of aviation—and in case of war it would be the deadliest instrument of destruction yet evolved—for it could move over a city with the precision of a player covering a checker-board, and blow it up block by block; or clean out an army regiment by regiment, company by company.

To win the \$250,000 prize a helicopter must:

- 1.—In wind not more than 20 miles per hour ascend in a straight line to a height of 2,000 feet and descend without damage.
- 2.—In less than a 20-mile wind ascend vertically 2,000 feet; remain there half an hour; descend without damage.
- 3.—Ascend vertically 2,000 feet; fly over a prescribed course 20 miles in area at a speed of 60 miles an hour; land without damage.
- 4.—Ascend vertically 2,000 feet in any wind up to 20 miles an hour; maneuver over a course as directed by the judging committee from the ground and from a height of 500 feet descend vertically without engine and alight without damage within 100 feet of the place of ascent.

No new entries can be received. The Air Ministry announced the competition about one year ago. When the plans of the entrants have been analyzed thoroughly the date of the actual flying contest will be announced.

How a heavier-than-air machine can descend 300 feet in a straight line with a dead engine, without damage, is not explained. That's what the Air Ministry will pay 50,000 pounds to find out.

WHEN IT COMES TO LOVELINESS ALMA WINS BY AN EYELASH—

They've had contests for the most beautiful backs, arms, legs, feet, hair, etc.—and now comes the moment—when before the public eye, as it were, Alma Bennett, famed beauty, claims the long eyelash championship and if there are any more lovely in these parts just cut them off and send them in. Alma says she keeps them that way by applying a little olive oil on the lid just before she goes to sleep.

CABLE LAUNCHES LIQUOR PROBE

Heads Committee to Investigate Enforcement of Dry Law

LIMA NEWS SERVICE
Washington, D. C., May 1.—Selecting as his aides a full roster of "bureaus" from the committee on Alcohol, Liquor Traffic, of which he is chairman, Representative John C. Cable of Ohio, today embarked on what he expects will be the most comprehensive investigation of prohibition enforcement since the 18th Amendment became effective.

Cable was named as chairman of the committee at the beginning of the present session of Congress, although it had not held a meeting since 1919. Until now he has been occupied with the problem of the central ice on immigration, but once President Coolidge signed the new law on

that subject, he laid his plans for a probe of "dry" conditions throughout the country.

That there will be a little division of opinion regarding prohibition among the members of his subcommittee is indicated by the presence thereon of such prohibitionist stalwarts as Upshaw of Georgia, Kravitz of Minnesota, Volstead's successor, and to be "drier" than the author of the prohibition act; Hudson of Michigan; Box of Texas and Addison of North of Ohio.

Cable says he intends to investigate dryness or increase in drunkenness in Ohio and other states, all along a line of the permit system, operation of breweries with or without permits and the alleged amount of alcoholic liquor that is being illegally used or smuggled into this country.

The probe will be continued after adjournment of Congress if members of the subcommittee are willing to remain in Washington in their zeal to get to the bottom of the prohibition controversy.

"ITS EQUAL DOES NOT EXIST", SAYS MCKIBBEN

Lima Man Indorses Peggen at Hunter's Drug Store

Mr. A. R. McKibben of 118 N. Jackson, a well known Lima man, in speaking of the medicine Peggen being distributed at the Hunter Drug Stores, in part said:

"In my judgment the equal of Peggen does not exist. It has been a wonderful thing for me.

"I have been in very poor health with no appetite whatever. What little food I did eat would cause a gas to form in my stomach. It would press up against my heart and give me severe pains. Then a sour water would rise up in my mouth, choking me.

"I felt doped and had that tired, worn out, don't care feeling.

"Peggen was highly recommended to me and so I started the Peggen treatment. Less than three weeks after I started taking Peggen I felt one hundred per cent better.

"My appetite improved. I found I could eat a good meal without having any pains or attacks of gas. Now

I sleep soundly every night and wake up in the morning with a clear head, feeling fresh and rested.

"I can recommend Peggen as being a valuable remedy. My experience with the medicine proves it."

CAUTION: The genuine Peggen is packed in a white and blue carton and may be obtained in Lima only at Hunter's Drug Stores, 43 Public Square and corner Main and Wayne, and the Argonne Store. Peggen agencies in nearby towns are:

SUMMER BRINGS THUG ACTIVITY

Banditry Blossoms in Manchuria as Warm Weather Comes

OPERATE ON 900 MILE LINE

Band Members Quickly Put to Death When Caught

HARBIN, Manchuria—(Associated Press)—The notorious bandits of Manchuria, called in Chinese "Huntz" or Red Beards, have begun to reappear with the advent of warm weather. Their favorite field of operations is along the 900-mile line of the Chinese Eastern railway, among the prosperous settlements populated by Russian railway employees and Chinese farmers.

The cold of the winter serves to keep these bandits more or less quiet, maintaining themselves as best they can on booty acquired during the summer season. Nevertheless, they do not find it necessary to hide in the mountains or forests during their period of inactivity. On the contrary, they mingle freely in the life of the towns as peaceable citizens, sometimes occupying themselves with some petty trade, or begging in the streets.

Occasionally one chance to be recognized, in which case punishment is swift and sure at the hands of an executioner who wields a two-handed sword, or in a locality dominated by the military, before a firing squad. In either case the occasion is public.

TOWNS TERRORIZED
The severity of their punishment when caught suggests the fear which the populace regards the bandits, and there is plenty of reason for this. In the summer they actually terrorize the railway towns, levy taxes on the lumber concessionaires, fight battles with the troops and are too often successful, and interrupt navigation on the rivers. They operate in well armed disciplined bands and thus far opposition to them has met with doubtful success. Railway guards exist but are poorly armed and poorly organized, so that railway employees living along the line are resigning their posts and moving to places of safety.

Work in the lumber concessions becomes intermittent in the summer because of frequent attacks, capture of employees, heavy taxes and forest fires of suspected origin. Steamers and junks on the rivers are occasionally

fired at, boarded and plundered. No remedy is as yet suggested. Troops have been used against the bandits but never in sufficient numbers to accomplish anything, and in the opinion of observers they never will be exterminated by force of arms so long as present political conditions continue.

FARM BILL TAKEN UP AGAIN

Vote in House by Tomorrow Night is Expected

WASHINGTON—With a vote on the McNary-Haugen farm relief bill in prospect by tomorrow night, the house, today, unlike the senate, took no Memorial Day recess in order to plunge back into the flood of amendments that was sweeping against the measure when it was laid aside Saturday.

House members generally predicted a close decision on the bill which makes provision for a \$200,000,000 corporation to export surplus farm products. Only two of its 25 pages had been disposed of after four hours' consideration of amendments under the five-minute rule when it was laid aside last week.

Republican leaders yesterday decided to take no concerted action to expedite the measure, but agreed individual representatives should have ample opportunity to present amendments or substitutes.

SELECTIVE EMIGRATION PROPOSED FOR BRITISH

LONDON—A scheme to extend the system of emigration by nomination is outlined by the Overseas Settlement committee in its report for 1933.

It is intended to establish collective nomination by churches, philanthropic societies and other organizations overseas. These will appoint local committees to obtain guarantees from local residents of employment and accommodation for settlers in their districts. They will send nominations to the church or other organization in this country to which they are affiliated, for selection of emigrants, who, on arrival in the dominions, will be cared for by the local committees.

PRISONER PARDOVED
COLUMBUS—William McCoy of Starkco, who had spent six months in the county workhouse working out a fine of \$200 and costs imposed for a liquor law violation, was pardoned by Governor Donahoe.

BRITISH GOVERNMENT IS SAVED BY LIBERAL PARTY

LONDON—Once more the Labor government can thank the Liberals for its continuance in office, as only with Liberal support was it enabled last night to stand against the Conservative attack, based on a motion to reduce Tom Shaw's salary as minister of labor by 100 pounds a year.

The Conservatives sought thru the motion to register the house of commons disapproval of the government's policy on unemployment. The motion was defeated by a majority of 48 after Premier MacDonald had declared that in the event of a defeat the government would go to the country in a general election.

Former Premier Lloyd George attended the Liberal meeting before the session at which the party atti-

tude was decided upon, but had returned to the house when Mr. J. L. Liberal not to vote against the government.

For Sore, Spongy Bleeding Gums

To stop soreness, stop bleeding, and turn your soft gums into firm, healthy ones, put your faith in Jo-Vex, the new discovery. It's marvelous in its quick action and so far as we know is the only preparation that is guaranteed absolutely, guaranteed—to banish forever—your money back. Ask Hunter's and Enterprise Drug Stores or any reliable pharmacist anywhere.

Loss of Life Attributed to Poor Teaching of Recruits

LOS ANGELES — (AP) — Los Angeles police officers are being criticized for their archaic methods of training recruits. A report from the Los Angeles Police Association states that the police department is in need of a complete reorganization and that the current methods of training are outdated and inefficient. The report also states that the police department is suffering from a loss of life due to the poor teaching of recruits.

ROOMS AVAILABLE FOR DELEGATES

New York to House 200,000 During Democratic Convention

600 HOTELS OFFER BEDS

Thousands of Apartments Found in Search for Quarters

NEW YORK — Delegates and visitors to the National Democratic Convention will not have to sleep six-in-a-bed. Nor will they have to repose in relays or bunk on park benches or in hotel hallways as an alternative to walking the sidewalks of New York the long nights through.

Stanley J. Quinn, directing vice-chairman of the local non-partisan National Convention committee, asserts that comfortable accommodations for 200,000 persons have been assured for the convention period.

Quinn, for delegates and alternates by state and territorial delegations, were based first of all in the largest and best hotels that are readily accessible to Madison Square Garden.

Then the 600 hotel comprising the Hotel Association took inventory and announced that during June they would keep available for convention visitors 40,000 rooms or 50 percent of their aggregate accommodations. Early applicants for reservations have been assigned to these hotels.

Next on Mr. Quinn's list of available accommodations are the residential and semi-residential hotels which during the convention period will be ready to give first-class facilities to 25,000 visitors. The local committee also has listed from 50,000 to 75,000 furnished rooms all well located to which out of towners will be assigned.

In addition to all these Mr. Quinn announced that scores of wealthy New Yorkers who will migrate to country homes or summer resorts before June 20 had volunteered to keep their town houses open for the accommodation of convention visitors. And rounding out the list are from 1,000 to 2,000 furnished apartments of three or more rooms that will be available for the out-of-towners in case of emergency.

As for rules, the convention com-

mittee was assured by the Hotel Association before it was attempted to bring the convention here that there would be no gauping. All the principal hotels have placed in the committee's hands charts of the rooms they will have available together with the rates. According to Mr. Quinn, these are considerably lower than the prices regularly charged during the winter months, and are as low as the summer rate schedule usually made effective in New York between May 15 and September 15.

BOOZE WAR OPENS IN RUMANIA

Legislation Bans Liquor—Light Wines, Beer Allowed

BUCHAREST — The idea of prohibition, at least in a mild form, apparently is beginning to take root in Rumania.

Vintila Bratiano, minister of finance and brother to the Rumanian premier has appointed a commission to assist in drafting legislation designed to curtail and regulate the sale and consumption of strong spirits particularly "tuzica," a native brandy.

It is not planned to interfere with light wines and beer. The habit of drinking these beverages is so deep-rooted that interference probably would be considered unwise by any Rumanian government.

The main purpose of the proposed legislation is to restrict the diversion of food products from nutritive purposes to that of manufacturing liquors of high alcoholic content. It is proposed to make it illegal for producers of foodstuffs to sell more than a small portion of their products to manufacturers of spirits and also to impose an additional heavy tax on manufactured strong drinks.

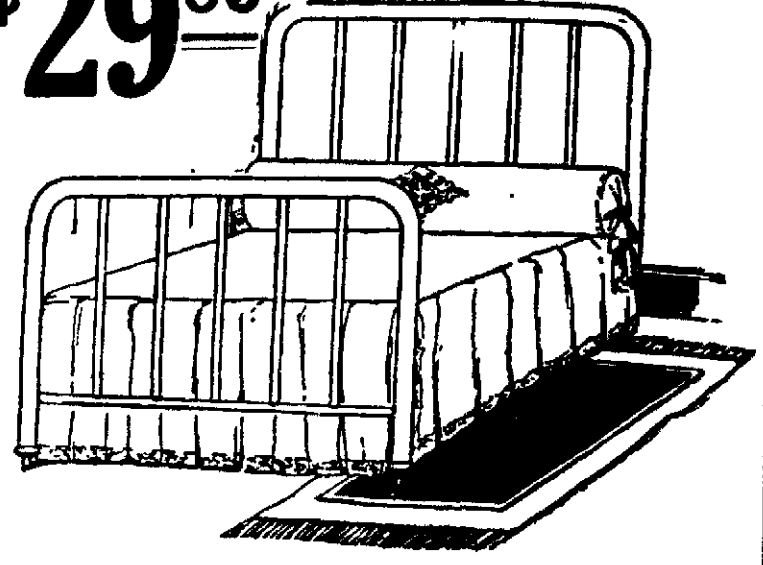

A nation wide educational campaign in favor of the measure is planned by the churches and other civic bodies.

WAREHOUSES BURNED
HOUSTON, Texas—Fire started by two lightning bolts destroyed the storage warehouses of the Magnolia Petroleum Co. here last night with a loss estimated at \$250,000. Eight 17,000 barrel storage tanks, three containing gasoline, one kerosene and four lubricating oil were included in the loss.

NATION BOWS TO WAR DEAD

Government Branches Join in Memorial Day Exercises

PRESIDENT MAKES ADDRESS

Coolidge Places Wreath on Unknown Soldier's Tomb

WASHINGTON — (Associated Press) — With President Coolidge presiding, the principal Memorial Day exercises in the Arlington amphitheatre at one o'clock, all branches of the government, its armed forces and patriotic and religious organizations today joined in paying final tribute to the nation's war dead.

The placing of a wreath on the tomb of the unknown soldier by the president, accompanied by Secretaries of War and Navy, and Secretary of Agriculture, and Wilbur, the ceremony was performed by the executive branch of the government, and was the only one of the day.

All executive departments of the government were closed for the day and the senate was in recess, and arrangements to make the president's address audible by radio to every part of the nation were made by the War Department.

WASHINGTON — (Associated Press) — The principal Memorial Day exercises in the Arlington amphitheatre at one o'clock, all branches of the government, its armed forces and patriotic and religious organizations today joined in paying final tribute to the nation's war dead.

Boy, 6, An Old Traveler

Crosses Ocean Alone Without Fear, Yet Dreads Streets

TORONTO, Canada — (Special) — Horace Horne, six, is afraid to cross the street alone. But when it comes to crossing the ocean, he is a hero.

He has just completed a 3,000-mile journey from Margate, England.

"And I wasn't scared the least bit," he says. "My daddy was over her e, and I just had to come."

There was no one to take him, so he decided to come alone.

"First I took a train," he explains proudly, "and then a steamer—the Minnedota. It's a hard name but I can spell it all right."

"There were three other boys on the boat, and we had a fine time. We weren't seasick, and we didn't have to worry about getting lost."

"But here in Canada, I'm scared of the strange streets. Maybe I'll go up one and then never find my way back."

"And I don't ever want to miss my daddy again. So I'm going to stick close by, till I grow up."

HORACE HORNE

DRY CONVENTION OPENS THURSDAY

Prohibition Party Leaders to Assemble at Columbus

COLUMBUS — (Associated Press) — Between 500 and 1,000 delegates representing thirty-six states and the District of Columbia, are expected here for the fourteenth quadrennial national convention of the Prohibition party Thursday and Friday next week.

The national committee will meet at 6:30 p. m. Wednesday.

The party is entitled to more than 1,000 delegates, according to Prescott Gillilan, state chairman for Ohio, who is making arrangements for the gathering. It will take a majority of those present to nominate.

Law enforcement and the "adoption of Christian principles" in public life will be the themes stressed at the convention.

Leaders here arranging for the gathering expect this year's convention to be one of the most important ever held. They point out that four years ago prohibition had not become as absorbing a topic as it is today and that law enforcement had not become an issue of the magnitude it is now.

The Prohibition party will take "high ground" at this forthcoming convention, it was declared by Dr. B. E. Prugh, Harrisburg, Pa., in a communication which Dr. Gillilan made public here.

"The revelations already made of political corruption in Washington and elsewhere, as well as the probability of still more astounding revelations yet to be made, the lawlessness so rife all over the land and the low level to which the average American voter has fallen in subjection to corrupt political machines and bosses, call upon the Prohibition party to take high ground at the coming national convention."

"The people are waiting for a deliverer and if we can persuade them we are leading the way they will follow."

A near centenarian is one of the remaining members of Mart Armstrong Post, No. 202, G. A. R. He is William Bowdle, aged 94. The youngest member of the post is the commander, G. R. Christie, C. L. Lask is next to the youngest, being 76.

LAST MEETING OF FULL FRENCH CABINET HELD

PARIS — The last full cabinet council of the Poincare government with President Millerand presiding took place today at the Palace of the Elysee. The government will meet again in council but the meetings will occur at the foreign office and Premier Poincare alone will be entrusted with the task of going to the presidential residence to present the collective resignation of the cabinet.

The present government has practically ceased to exist so far as the president of the republic is concerned for its members will not again present themselves in a body before the chief of state.

WAGES BOOSTED

CHICAGO — Bricklayers will receive \$1.50 an hour minimum after June 1, according to an agreement reached between officials of the Associated Builders and the union. The existing agreement, expiring May 31, specifies a minimum of \$1.25.

PAPERS CONSOLIDATE

MILWAUKEE — Merger of the Sunday Sentinel and the Sunday Milwaukee Telegram, effective June 1, was announced today.

GERMAN BUSINESS CREDIT LOW

High Interest Deals Severe Blows at Merchants

HIGH PRICES ARE ASKED

Established Paper Money Mark is Sought in Readjustment

LIMA, July 6.—The German business credit is low, and the result is a severe blow to the merchants. The high interest rates on loans and the high prices asked for goods are making it difficult for the merchants to do business. The established paper money mark is sought in readjustment.

INDUSTRY HALTED WHILE SOLEMN TRIBUTE IS PAID TO DEAD TRIBE CHIEFTAIN

HONOLULU.—The wheels of progress were halted here recently while a solemn tribute was paid to the memory of an all but forgotten chieftain of Hawaii, and the desecration of his a hea was rendered impossible.

In the path of a dredger which has been conducting a drainage project there stood a house inhabited by an old Hawaiian and his wife. They were warned to vacate as the dredger approached their small holding.

They refused to leave. After several days of argument it was found that their refusal was based upon the fact that their house was on an old burial ground and that the bones of a great chief and a dozen of his relatives were underground.

The old people would not leave the spot until they had seen the removal of the bones of the "alii" and his relatives, and their retirement in some more peaceful spot. The board of health was consulted. A permit to dig up the bones was granted. An undertaker removed the remains from the earth, and the dredger continued on its way thru the ancient cemetery.

PRINCESS, BUT SHE WORKS

Princess Margarete von Schomach, Countess of the former Emperor, is now head nurse in the Wilhelmsstrasse City Hospital, Berlin, and says that all without work would be very uninteresting.

Booze Sellers Get 324 Years In Year's Time

CHICAGO.—If one man were to spend the aggregate sentence handed out to booze law violators in Chicago during the last twelve months, he would have to stand on his head and lodge behind the bars for 324 years, according to Edwin A. Olson, United States district attorney for Chicago.

The total booze law convictions in the twelve months, according to Olson's statement, is 1,501, which gives him the figure for another statement that "prohibition enforcement is doing more than any other law in Chicago."

The number of convictions in twelve months is but one record that has been established by the prohibition enforcement department. Another is the record established in closing premises that housed liquor law violators.

Records on the property forfeitures issued show a total of 454 were issued from May 1, 1923, to May 1, 1924, and that the property forfeited for one year by the court action has an aggregate value of \$20,000,000. The list includes 16 breweries in 19 northern Illinois counties and the million dollar De Jonghe hotel, a popular hostelry in the heart of Chicago's loop district.

Olson holds the property forfeitures as his most effective weapon against the booze kings. It gives him a means of prosecution, both more effective than criminal action and at the same time serves to keep property owners from accepting questionable tenants.

"They are not going to run the

city of having their property closed for an entire year for the sale of a few months' rent paid by a booze runner or a salaried official," Olson said.

In the last few months we have had more reports of booze joints than at any time since prohibition was enacted. I am confident that the next few months will see a still greater decline in complaints.

MOVE BEGUN TO RESCUE WOMAN

World-Wide Campaign Launched in Behalf of Russian

IMPRISONED BY GOVERNMENT

Once Condemned to Die and Exiled to Siberia

BERLIN.—(Associated Press).—Maria Spiridonova was saved from the gallows in 1906 by a world-wide protest.

The czar's government did not dare execute the 35-year-old girl, in the face of universal protest against the abuse she had suffered at the hands of brutal soldiers, and she was sent to Siberia for life.

With the abdication of the czar

Spiridonova returned to Russia to become an effective leader of the peasant-Bolshevik leaders, with whom she tried to work, and now another world-wide movement has been launched to rescue her from Soviet imprisonment and make it possible for her to leave Russia and regain her health in some quiet land.

GENERAL APPEAL

The International Workers Association is behind the movement to effect the release of Spiridonova and also hundreds of other revolutionists, socialists and workers who are in Soviet prisons and concentration camps. A general appeal has been made to all labor and revolutionary organizations throughout the world to help in the campaign for the release of non-partisan revolutionists held in Russian prisons.

Social revolutionists, anarchists, syndicalists and various other sort of so-called liberals and radicals are joining the movement and broadcasting their appeals in terms which denounce the communist regime in Russia as a "dictatorship over the proletariat" rather than a "dictatorship of the proletariat."

Since July 6, 1918, Maria Spiridonova has been in disfavor with the Bolshevik government. When she re-

turned from 11 years of Siberian exile she was welcomed as a leader of the peasants, and worked with the Soviet regime until the ratification of the Brest-Litovsk Treaty, which she denounced as inimical to the interests of the peasants.

With many other Left Social revolutionists she was arrested after the murder of Count Mierbach, the Russian ambassador, and her life has been one of constant persecution according to the organization which are seeking Maria's release.

Don't Just Watch Others Play—Get Into the Fun Yourself

Do you like golf, tennis, baseball, swimming, dancing, automobile, etc.? If piles keep you from doing the things you like, you'll jump for joy when you hear that Munyon's Pile-Ointment positively stops the worst case of itching, bleeding piles.

CHURCHES MAY BE TRANSFERRED

Removal of 19 from London to U. S. is Talked

MASTERPIECES OF WREN

Space Occupied by Historic Buildings is Desired

LONDON—(United Press)—Nine famous London churches—some of them the architectural masterpieces of the great Sir Christopher Wren—are doomed to demolition.

Doomed to brick-and-mortar space, as has just been suggested, they are carefully taken down and carried to America for re-erection in various American cities.

These nineteen churches occupy tremendously valuable sites in the financial district of London, but each of them has less than a handful of worshippers on a Sunday.

If they could be removed and the land sold or leased to the great English banks and insurance companies, new cramped for room, the hard-pressed Church of England would be richer by about \$20,000,000.

But the question greatly embarrasses the Bishop of London and his advisers as to what to do with these historic churches.

In the main they are modest, little structures, mostly made of brick, some with towers or steeples and with leaded stone, they occupy a crowded little site, crowded between a great office building and a warehouse. Thirteen of the churches were designed by Sir Christopher Wren after the Great Fire. Seven of them are so full of worshippers that the commission appointed by the Bishop of London to consider their fate did not dare suggest their total demolition. Instead, the commission recommended that the towers or steeples should be removed in memory of Wren or his period.

The seven famous churches whose names are at the bottom of the list are: St. Andrew's, St. Dunstan's, St. Martin's, St. Michael's, St. Paul's, St. Stephen's, and St. Thomas's.

side, where the poet Herrick was buried in 1633; rebuilt by Wren after the Great Fire.

St. Dunstan-in-the-East, dating originally from Norman times and rebuilt in 1741.

St. Michael (Patronoster Royal, College Hill, where Dick Whittington is buried).

St. Dunstan-in-the-West, Fleet street, where the poet John Donne preached. Charles Lamb was born under the shadow of this church.

St. Dunstan-in-the-East, Tower street, with the most unusual of all Wren's rather unusual steeples.

St. Magnus-the-Martyr, London bridge, destroyed in Great Fire and rebuilt by Wren.

St. Michael, Cornhill, rebuilt by Wren.

The City of Toronto has several times suggested that it would be glad to purchase one of these churches and remove it, brick, to Toronto, to be rebuilt there on an appropriate site and forever preserved.

Architects say that it is feasible, though, of course, not inexpensive. Still, the Bishop of London hesitates. He wants a dignified solution that will commend itself to English public opinion and that will insure their preservation as churches humming with life, instead of cold, empty, historical monuments.

Admittedly rather difficult! Wherefore it is not inconceivable that these old masterpieces may yet find themselves transferred to American cities to resume both their youth and their usefulness as links between the old Church of England and the elder daughter, the Protestant Episcopal Church of the U. S. A.

PORTO RICAN MOLASSES COMING TO UNITED STATES

SAN JUAN, Porto Rico — Four million gallons of molasses, approximately one-quarter of the estimated production of the island this year, will go into "home consumption," according to reports from central. The central will produce something like 16,000,000 gallons of black-strap molasses, it is estimated, of which probably 12,000,000 gallons will be exported chiefly to the United States for manufacturing purposes, principally stock feed and alcohol.

Of the 4,000,000 gallons left for "home consumption" it is likely that about one-half will be fed to cattle leaving 2,000,000 gallons to go to bootleggers. Four gallons of molasses will, properly persuaded, produce one gallon of alcohol. On this basis the alcohol production will be in the neighborhood of a half million gallons.

FUR ANIMALS TO BE PROTECTED

Wholesale Slaughter to Satisfy Fashion is Opposed

NEW YORK—(Associated Press.)

A campaign to restrict the power of Dame Fashion who for "mere decoration compels the extermination of whole species of fur-bearing animals" was launched tonight by the American Blue Cross Society with headquarters at Springfield, Mass., and the New York Women's League for Animals.

Underskirts of monkey fur, fans of ermine tails and lace, the parasol which when closed appears to be a bunch of folded ermine with an ornament of tortoise shell that represents the kitten's nose, are listed by the societies as bizarre fads which

are causing needless destruction and cruelty.

The Blue Cross campaign against the summer fur craze a year ago was effective, Miss Maud Phillips of Springfield, president of the society, said, but fashion of wearing furs for mere decoration has so increased "that fur is being cut and handled as if it were fabric and not the God-given skin of an animal."

Novelties like the ermine cape, described as having a "wide rippling circular flounce that begins at the neckline and runs all the way around a train-like back," or white fox fur collars to set off organdy are denounced as wholly unnecessary fads.

The societies urge nation-wide participation in the campaign by clubs and associations and legislation prohibiting the setting of traps except during a short season when fur is at its best.

Among the officers of both organizations which are taking an active interest in the drive are Mrs. Edith W. Arton, Mrs. Lewis Governor Morris, Mrs. Frederick W. Vanderbilt, Mrs. Harry G. Fisk and Mrs. M. Orme Wilson.

Swift fingers, keen mind, and nourishing Kellogg's just naturally go together. So delicious and easy to digest—far better than heavy foods.

Kellogg's CORN FLAKES
Inner-sealed wax-tite wrapper—exclusive Kellogg feature.

PEONY GROWERS PLAN DISPLAY OF 1,000,000

DES MOINES — A million peony blooms will be on exhibition here at the National Peony show June 14-16, it is stated by F. T. Meredith, former secretary of agriculture, who is general chairman of the show. Mr. Meredith said that it will be the greatest exhibition of a single flower ever held. More than 250 varieties will be on display.

Exhibitors will be here from all parts of the United States and Canada. One Massachusetts grower will bring a carload of peonies across

the country for the event. Amateurs as well as commercial growers will exhibit.

RADIO GIRDLE FOR BRITAIN
LONDON — Shipping proceedings around any part of the British Isles will, in the near future, not have to rely solely on the many light-houses and their own means of location finding. It is intended to place a girdle of radio direction-finding stations at the Lizard, Berwick, Falmouth, and other points which will give steamers their exact positions.

RUSSIAN STAGE PRAISED BY GERMAN TRAGEDIAN

BERLIN — Alexander Moissi, the German tragedian who has just returned here after having played an engagement in Moscow, finds conditions in Russia are much more favorable to art than in western Europe. The actor says Russian artists live for art's sake while in the western theatres business interests control the theatre. Moissi was impressed by the decency of productions in Russia, where he says unclad women and erotic plays do not dominate the stage as they do in Paris, Vienna, London and Berlin.

MEMORIAL DAY

Our Nation's Yesterdays!

It has been said that a nation, like an individual, is the sum total of its yesterdays. On Memorial Day we turn from the busy present and dwell upon our nation's yesterdays of struggle, sacrifice and glory. Time has bound up broken bodies and aching hearts, and given us the proud and precious tradition of national ideals gloriously upheld. May we always be worthy of the noble heritage, and hold in honor the memory of those who bequeathed it.

City Carrier, 15c a week.

To My People

Friends: Today we pay respect to the honored dead who fought in our wars. Death, however, the Final Conqueror, is rapidly thinning the ranks of the Boys in Blue and the Boys in Gray. In a few more years the last of the Civil War veterans in Lima and Allen-co will have joined their comrades on "fame's eternal camping ground."

Memorial Day originated in honor of the heroes who made the supreme sacrifice in the Civil War. It has taken on a wider significance, and includes our departed heroes of the Spanish-American War and the World War. Veterans will march this Memorial Day. Bands will play, flags will fly, flowers will be strewn on graves.

But if the dead could speak, they would rise in their millions and plead for an end of all wars. Peace is the soldier's goal.

All honor to the heroic men of battle and the women who have borne an equal amount of the burden. But in honoring them, let all of us remember that we are in the presence of tragedy.

Let Memorial Day stimulate us to work for lasting peace, rather than the day spreading militaristic sentiment and false glory that can only help perpetuate the Great Illusion—war and its misery.

LIMA BEANE

To the County Kommish

Dear Gents: A glance at the map will show you that Lima is really located in Allen-co. A glance into the records of Col. Phillips' office, will show you that Lima pays three-fifths of your salaries.

As guardians of county property, why let your own premises fall into ruin and decay? Approaches and walks about the court house are not only deplorable, but an absolute disgrace. There's a hole in your very entrance on North-st. Your grass is allowed to go to weeds and platen, following the same procedure as your Memorial Hall lawns.

Lima really is in Allen-co, and your two building monuments are in Lima. Forget a few ditches and stone contracts to farmer friends, and clean up your own premises.

LIMA BEANE

To Messrs. Offenbauer and DeKalb

Dear Friends: We congratulate you. The King is Dead, Long Live the King.

Our new superintendent of schools one of the best plants in Ohio is being turned over to you. As our new Architect of school buildings, this plant must be kept up to its high point of efficiency.

We now have sufficient buildings for the next ten years, but the only way they can be kept efficient is by maintenance. This we believe you, Mr. DeKalb, well know how to do.

There is plenty of money, with a possibility of a third million more to come under the new apportionment. Both of you will make good, is my belief.

LIMA BEANE

To F. E. Harman, Booster

Dear Frank: I hear the public calling you. You, the Man of the Hour, to give Lima representation on the County Kommish. You worked out the waterworks. You saved an Administration from inevitable collapse; you have been a booster in this community for nearly half century. You know public affairs; You have the time to devote to them; your advice, counsel and common sense on the Board

of Commissioners, will serve equally well, city as well as rural communities.

Republican, tho you are, come across with a primary petition for nomination.

LIMA BEANE

To Henry Ford

Dear Hank: Everyone seems to "know" that you are going to do something in my community, but everyone seems to have a different idea as to what it is to be and all seem to think they have the inside info. Why not come out and make a statement so we will know what it's all about and set idle rumor at rest? I welcome you in any project, so don't be backward.

LIMA BEANE

To R. A. Heitbrink

Dear Heit, I am sorry to hear that you are leaving us, but at the same time I am glad that you have won a promotion and that you will now be manager of the Fremont branch of the Ohio Power Co. I know that Fremont will have one more civic booster and I'll look forward to hearing of a monster kite contest there next year to delight the youth of that city. My Kiwanis club will miss your work.

LIMA BEANE

To the City Kommish

Gentlemen: The public is becoming more and more favorable to City Hall. The public is better informed on your financial condition. It sympathizes. Why not take the public entirely into your confidence?

An annual Auditor's report has not been made in two years. It may not be needed. An intelligent document, in the form of a bank statement, published every month on the tenth, would be far better. Let this statement show balance sheet and operating. Show what monies actually come in, what go out. Make it readable.

We believe you have opportunity to fully win the public, and when more funds are needed, they will be voted. Provided, you use the means and power you have to CREATE new income. You can lose nothing by full publicity. You may gain much.

LIMA BEANE

To Lima Pythians

Dear Lodgement: Your efforts in behalf of the visiting delegations here Wednesday are commendable. All reports indicate that everyone had a good time and that Lima's chances of obtaining the state grand lodge meeting are very good. I hope many other lodges will bring similar meetings here in the future. It all helps to boost my city.

LIMA BEANE

To Kiwanis Singers

Vocalists: My best wishes go with you to Youngstown for the extended there Saturday. We will all be listening for the first word regarding the result and if whole-hearted boosting will do any good. I know you will be successful in one or more of the competitions. Lima has a good reputation in musical circles and I know it will not suffer at Youngstown.

LIMA BEANE

To the Weather Man

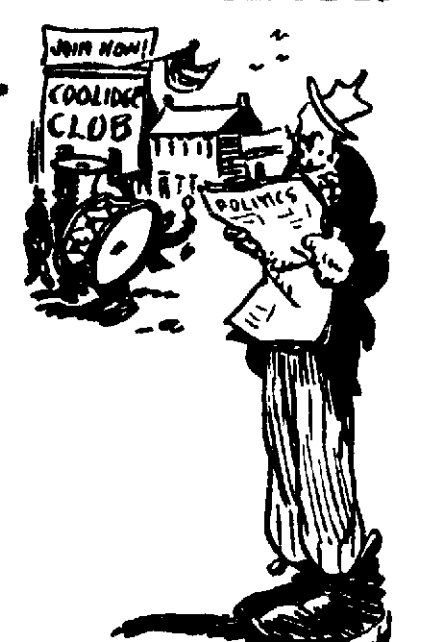

Old Top: You've made a month of rain out of what should have been a month of sunshine and flowers. I'm disgusted with you beyond words. Cut out the foolishness and get down to business!

LIMA BEANE

'ROUND LIMA HOUR BY HOUR

BY OH. OH. JACKENRIM

ABE MARTIN

Opportunity rarely shows up, but temptation has a regular route. Envy's malice tell on you quicken glowers.

(Copyright, 1924)

was in the National League, he'd win the pennant. Awful time for owners and trainers on the Leaky Roof Racing circuit.

Away by taxi, seeing and wanting to see, no one. Gloom reflected to, faintly from all faces. And the court house terrace had practically sold out all the choice seats, Wednesday. Ed Botkins getting one of the best.

At the shoppe, no one pleasant, the devil quit in a huff. While one of our best gum chewing cuts, on the East side, was showing off his usual pleasant complex. The work too, on the telephones was awful even insulting. If you could only find some girl with an idea of courtesy and charm. So things not going well this day, at all.

Home to lunch, and ate a platter of hash with baked beans. When came the innocent punners, following the tinnies and tines. Did you ever notice when you changed a tire, there is always a pipe in the way. Those plumbies, the sky's chaps both fore and aft.

On the street, met an old timer, to whom going home means only breaking up the furniture, and introducing the newest cuss words. How, ben, since prohibition he has added, choking to his artistic, neighbors tell me.

That new twist about the difference between the most popular in door, and outdoor sport, must be charged against the wealthies. Albeit, judged by results their noble indoor game is very bad.

Dined to the opening addresses at the Army and Navy club in Washington, D. C. When Prof. Burgett put the kazoo on General Pershing. Thither, to Jimmie's studio, Al scattered long most bravely, discovered there were ten others ahead of me in the rum room.

So, home to try the Gillette. And late to bed.

LIMA NEWS HEALTH SERVICE

—BY DR. WILLIAM BRADY—

THE ATHLETE AND HIS RUB DOWN

Professional boxing contests describe valuable effects. It doesn't matter much what may be used; the only good purpose served in any case is lubrication, the prevention of excessive friction on the skin from the hands of the masseur. Plain sweet oil (olive oil or coconut oil or cocoa-butter or sweet almond oil or sesame oil) is as good as anything else. Some athletes like the soothing odor of a little camphor in the oil—camphor ointment (also called camphorated oil). Others like witch hazel, bay leaves, or other agents. But the alcoholic "extracts" of these latter agents should not be used for the rub down. The massage and not the medicine does the business. It is childish to imagine that any liniment or other external medication will "limber" an athlete's muscles or prevent stiffness or fatigue.

(Copyright, 1924)

Skillfully given massage port poses the onset of fatigue of muscles and hastens recovery from fatigue of muscles in the athlete. This is the reason why massage is generally used by trainers. A "rub down" lasting three or four minutes immediately after a hard race or other contest will offset fatigue so that the athlete can repeat the performance or continue considerably longer than he could without the aid of massage. That the effect of the massage is produced thru the circulation is pretty well proved by a scientific experiment in physiology. After compression of the brachial artery (the main artery of the arm) an individual could contract a finger only eleven times where, under normal conditions he could contract it 265 times. Then with the circulation still shut off, three minutes of vigorous massage was given, and the individual could contract the finger only nine times. That shows that massage is a blood effect when the circulation is interrupted. Massage aids the nutrition and metabolism of the muscles, increasing the blood supply and hastening the removal of waste matter thru the circulation.

But have you met him? Sweetest fellow in town! Make his acquaintance the next time that candy-buys per hits you. The best 10c a bar!

JUST FOLKS

—BY EDGAR A. GUNST—

REASON FOR GOING FISHING
Some go fishing just for fish—
That is sport for market-men,
Let them have it, if they wish,
Bait their hooks and cast again,
I'm a fisherman who goes
Out upon the lake or stream
Seeking fish, but goodness knows
Glad to catch a passing dream.

I can glory in the day
Whether big ones bite or not,
Steal my bait or get away,
Let me find a lovely spot
Where the sunbeams race and dance
And the birds of summer sing,
And I'll give my soul a chance
High above the world to swing.

I can lie out there and dream
Glad if I can catch a thought
Of the wise Creator's scheme
And the marvels He has wrought,
Fish, of course, it's sport to net,
But there is so much to see
That I never sigh nor fret
When good luck won't favor me.

Some go fishing for fish—
I go fishing, if you please,
Glad to hear the willows swish
And the murmur of the breeze;
I go out to hear the streams
Laughing as they race along,
Giving up my soul to dreams,
Touched with beauty and with song.

At the Orpheum

"The Whipping Boss," a stirring photoplay portraying the American Legion's fight for civic betterment, opened a three day stay at the Orpheum Friday. The picture is being sponsored by the Drum Corp of Paul Gallagher Post of the American Legion.

The picture is a virile, thrilling drama exposing the evils of convict-leasing system where, often, men are seized against their will thru the influence of grafting and petty officials. It deals with an expose and abolition of such conditions of servitude in a logging camp, thru the efforts of a fearless young commander of an American Legion Post.

Ever since the first exhibition of the film, letters of endorsement both from individuals and organizations have been pouring into Legion headquarters at Indianapolis. One of the first organizations to endorse the film was the General Federation of Women's Clubs. This action was taken by the Federation's Board of Directors following a preview of the picture at Washington, D. C. Women's clubs thruout the country are co-operating with the Legion in showing the film.

Lloyd Hughes, Eddie Phillips and Barbara Bedford have the leading roles and are supported by Wade Boteler, J. P. McGowan, George Cummings and Billy Elmer.

AID SAVES LIVES OF INFANTS

Low Ratio of Deaths in City and County Due to Good Care

Seventy-five babies out of every 1000 born in Ohio during the year 1923 died in the first few months of their life, according to a bulletin issued by the United States Department of Health. The rate for Lima was 66 out of 1000, while that of Allen-co was 44 per 1000, according to figures given out by Dr. J. J. Sutter, county health commissioner.

"The reason the infant mortality rate in the county is so low is because of the personal care given every baby and mother by the public health nurse and the literature put in every home of the country, Dr. Sutter says.

"There are few illiterate foreigners on the farms and in small towns," says Sutter, "and for that reason the literature we send out is read and consequently serves its purpose to a greater advantage.

"The more efficient the nursing service, the lower the infant mortality," says the commissioner.

TWO DIE IN FIRE

BALTIMORE & OHIO

The LAND OF FORGOTTEN MEN

by Edison Marshall

Released by NEA Service, Inc.
Copyright 1923 by Little, Brown & Co.

BEGIN HERE TODAY

Big Chris Larson, Alaska cannery foreman, seeking boat connections for the outside world in a launch, is driven by a storm into a small cove.

He had met the Remittance Man last evening and stands on the storm-swept beach, wondering upon the latter's hard drinking, when he observes a distress signal from a speeding ship at sea. He is about to board his launch to answer the call when the Remittance Man joins him.

They join the launch crew and start to the rescue despite the storm.

NOW GO ON WITH THE STORY

Big Chris turned toward the door. Captain Jim smiled dimly when the Remittance Man got up, too.

"You are no sailor," he commented.

"Nope! That part of my education was neglected. But any one who has done as much fancy balancing to keep his feet as I have in the last year will be a steady man in the tops! I'll go out and be in that big Norwegian's way."

The fellow, easy voice some way heartened the man at the wheel. His pale blue eyes frankly studied the handsome, clean-cut face, now plainly revealed in the light of the pilot house. This southerner had wasted the birthright of a powerful physique. He was a tall man, extremely broad of shoulder and big of bone, and a careless glance might have attributed to him even such physical power as that of Big Chris, whom he resembled greatly in build. But there was no iron in those big, loose muscles.

There was still, in his face, the lingering image of what had unquestionably been a general allowance of real, manly good looks. The captain's gaze was quick and penetrating tonight, and he could see back into the man's past; he could see the man of this half-drunken, dissipated creature was the image. Far away, and not long ago, he had been a youth of the greatest personal charm—well-bred, perfectly mannered, affectionate and good-natured; amiably weak yet chivalrous, quick to sympathize, kind and forgiving to inferiors but recognizing no superiors; a certain well-to-do type of southern gentleman of an old school.

Curiously enough the man was clean-shaven, and the only explanation was that the lingering image of BLANK.

The Remittance Man turned in obedience, and the tilting, wave-washed deck brought him to sobriety quickly. The danger, the night and the stars, most of all the eternity of plunging waves on which the ship was borne, wakened an odd, dark mood, stranger to him in all the reckless, roving years of his youth. Some way he saw this North of his in a new light. For the first time since he had come here, he was sober enough to catch the real tone, to feel the spirit of these desolate seas and the eerie, savage, rock-bound shores they washed. He had never thought about them in a particular before. He had simply lived in a nightmare world of drink, and all the stern magic of this land had passed him by. But he was responsive to it tonight.

It was such a mood as could easily hurl him into tragic regrets if he had let himself go—if he had not long ago sworn off all regrets. In the first place there was no particular act of his—not even the tragic outcome of the launch ride on the Savannah River—to which he could directly attribute his downfall; it had really been a combination of circumstances, many of which had been beyond his direct control.

He had been weak, true enough—drinking rather too much than was good for him, but no more than other men of his class, and not one-tenth as hard as he was drinking now in forgetfulness. He had been jealous with little cause; but this was also a human trait. It was simply that for all his auspicious beginning, his care-free youth and the wonder of those first ineffable months with Dorothy—the cards of fate had been stacked against him. So it was neither wise nor fitting that he should yield himself to regret. There was no use fighting when there was nothing to win. He could never go home. He must always be a fugitive from the world of men. He must stay here till he died.

It seemed to him now that this ultimate end was nearer than he had ever dreamed. There was a strange sense of finality about this voyage. The wind was like a whip out of the northwest, stinging his eyes, buffeting him as he braced himself on the tilting deck, seeking every crevice to thrust a sleeve and collar into his vitals. In the loneliness of the mood it did not occur to him at once that his fellow watchman might be likewise suffering. He only knew the truth when Big Chris paused beside him, cursing.

"God, I wish I had my coat," he said. "Like dam! fool I left it in the native's shack."

The Remittance Man gazed at him in quick amazement. It was true: Chris' heavy mackinaw shirt alone saved him from the lash of the cold.

"Good Lord, I wish you'd take mine," the Remittance Man answered promptly. "I'm sweating like a horse."

He saw the look of incredulous amazement in Larson's face. "Yes, you are," he began in decision.

"I am, no fooling. I guess it's the liquor—besides, I've got a caribou shirt underneath." He quickly threw off his heavy seaman's coat and held it out. Wear it a while, anyhow—we're about the same build and it will fit you to a T. I'll hold it for it back as soon as I feel chilly."

Big Chris muttered, but slipped the garment on. He could not doubt these ringing words; otherwise wild horses could not have forced the coat over his brawny shoulders. Presently he turned away, leaving this man of curves almost unprotected in the blast of the wind.

Why he had acted as he did, he could not have told you. The dying figure had chilled him, rather than warmed him, nor was there any shirt of cold-defying caribou hide under his outer garment of heavy fannel.

He could not exist long in such cold as this. The frost seemed to penetrate his vitals. The dawn was breaking over the sea, incredible after this night of storm and darkness; but it brought no mercy from the cold. Either he must leave his watch and see shelter below, or else perish on the deck.

He turned, at last, toward the pilot house; but it was the strangest thing in all his strange life that he had little real desire to go. It was not that he was really needed on the deck. Rather, it was an outgrowth of all too plain. At least there would be some semblance of decency in such a death—to be stricken lifeless by the cold in his keeping of his watch.

But the Remittance Man never reached the pilot-house door. There was one strange, howling, blinding instant of incredible stress, a quick, cracking, explosive sound that hardly had time to reach his ears, and then the swift realization, like a rocket's flare, of irrevocable disaster. The ship reeled, rent, the cruel crash ripped, hurled it over; and the dark waves, foam-crested, roared, plunged, and smothered him in an instant. The man's lips opened in one despairing cry; and then he was swept and hurled into darkness.

CHAPTER II

Bad News for Dorothy

From Dorothy Newhall's favorite chair where often she sat cross-legged like a sailor, she could look thru the broad library window, across velvet lawns and a flowering hedge, and thence straight down the long, white boulevard of Walton Way. It was characteristic of a certain part of her that in late years had come into the ascendancy that she preferred this view to that from the wide glass spaces of the sun parlor, the vista of dark pines, deep in shadow, and the fields surrendering to the ardor of the Georgia sun. Dorothy's father-in-law had been surrendering to the ardor of his delight, and in his lifetime had been rather intolerant of the stream of motor vehicles that flowed ceaselessly up Augusta's most fashionable street; but they were all part of Dorothy's life. Today she saw the colored messenger boy, pedaling stiffly up the grade, before ever he had passed the great, fashionable tourist hotel on the brow of the hill.

She had time in plenty to watch him, and nothing better to do. Since she had full cause to watch for telegrams, a swift premonition told her that the boy was heading straight toward her door.

She had no great sense of surprise when the boy turned into her own beautifully curving driveway, dived to the wide veranda, leisurely propped up his wheel, and passed beyond the range of her vision as he mounted the veranda steps to her door. Dorothy got up slowly from her chair, crossed the hall, and her hand was steady as she signed for the messenger.

The messenger's fingers tore it open.

The yellow slip still lay in her hand. She did not look at it at once. Instead she lay with closed eyes, and the world swept thru space, and she moved as in the grasp of half-sleep. She raised her hand slowly, and the message came with it; and slowly, laboriously, she read it thru

It had been filed in the wireless office at Pirate Cove, in Alaska—a place of which she had never heard—and had unquestionably come by wireless to Seattle, whence it was sent by wire across the continent. It did not mince words:

(Continued in Our Next Issue)

TODAY'S PATTERN

A JAUNTY SUIT AND BLOUSE

4731-4651-4658. This suit is comprised of Ladies Blouse 4731, Ladies Skirt 4658 and Ladies Jacket 4651. One could use alpaca or tweed for Jacket and Skirt and silk broadcloth or crepe de chine for the Blouse. The width of the skirt at the foot with plaits extended is 2 1-8 yards.

The Skirt is cut in 7 Sizes: 25, 27, 29, 31, 33, 35 and 37 inches waist measure, with accompanying hip measure, 35, 37, 39, 41, 43, 45 and 47 inches. The Blouse is cut in 6 Sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. The Jacket is cut in 6 Sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. To make the Suit (Skirt and Jacket) material 40 inches wide, for a medium size, will require 5 3-4 yards. To make the Blouse of 32 inch material will require 2 3-4 yards.

THREE separate patterns mailed to any address on receipt of 10c FOR EACH pattern in silver or stamps.

"My Rheumatism is gone—"

There's glorious joy in knowing that more Red-Blood-Cells than rheumatism, and that S.S.S. builds Blood-Cells!

"There are thousands of you men and women, just like myself, slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had

S.S.S. thoroughly rids the body of Rheumatic Impurities.

the wrong idea about rheumatism for 15 years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S. Say what you will, I never knew such startling results were possible. Well, folks, besides knocking out my rheumatism it gave me back some of the strength I used to have way back! I've got a better color in my face, my appetite is dandy, I don't use my crutches any more. I'm walking around straight-up on two young legs!" S. S. S. makes people talk about themselves the way it builds up their strength. By building blood-cells it builds nerve strength for young folks who ought to have more, and for older people who have little. It stops pimples, boils, blackheads, eczema, chases away blood impurities. You can always rely on it. Start S. S. S. today for that rheumatism. You'll feel the difference shortly. S. S. S. is sold at all good drug stores. The large size is more economical.

S.S.S. makes you feel like yourself again.

THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LESLIE PRESCOTT TO RUTH ELLINGTON, CONTINUED

Once in a while, Ruth, Dad takes a stand, and he did take one today with Alice.

"I have seen," he said, "with increasing distrust and distaste, Alice, your growing idea that every one who comes near you must be at your beck and call, and right now I would like to give Karl a tip. Unless he brings you up short his life will be given to doing things for you which you would better do yourself. Karl is too good a man, too big a man, to be dancing at your whim all the time. Neither your mother nor I will do it."

"We are all going our several ways today, and you can take care of yourself for the next six or seven hours."

"Dad, I think you're a perfect beast!" said Alice as she flounced out of the room.

Karl started to go to her, but Dad peremptorily insisted that he should stay behind.

"But I don't want Alice to be unhappy, Mr. Hamilton," he said.

"She won't be," answered Dad serenely. "In fact, after she gets used to it she'll be happier than she is now. No selfish person is ever very happy."

"I think, Alice," he said turning to Mother, "that you and I made a mistake in letting our youngest daughter remain abroad so long alone. She has no discipline whatever. In fact, she is not able to discipline herself, and of course when she is married, Karl, you'll have to do it, and I must say I don't envy you the job."

"The child has had altogether too much money and too little responsibility to others."

Karl looked very much relieved, and we all started out on our various ways. I, of course had to go to the wholesale houses for you, and Karl was going down to Franklin-at to see his lawyer, so we decided to meet at a little restaurant near Wall-st, much patronized by business men and financiers.

"I will meet you exactly at 1 o'clock," said Karl as he put me in the taxi.

"All right," I answered, and drove away.

At 1 o'clock I found Karl waiting for me at the door of the restaurant. I saw him before he saw me, and I

was somewhat anxious to note his drooping shoulders and general air of dejection. I wondered if he had had bad news from his lawyer.

When he saw me his eyes lighted up, however, and I thought perhaps I had over-emphasized his attitude.

We found a table in a far corner, partly screened by a palm. The first thing he said to me was:

"I hope your digestion is good, for the specialty they make here is fat mince pie with toasted cheese poured over it."

"So that was what made you look so unhappy when I came in; you'd been eating it."

His voice changed.

"Did I look unhappy, Leslie?" he asked.

FOR SALE BY OWNER—EAST SIDE—5 room modern bungalow, fruit, garage, lot 30x150. 725, Hink 3772.

\$100 DOWN—3 1/2 ACRES ON paved road, 1/2 mile from Lima. An ideal place to build a suburban home. Phone Lake 7640. High 2194.

Good Values For Exchange

Nine hundred dollar equity in good five room house, close in on East side, fine location, bath, electric lights, gas and water in kitchen. Has cellar and large enclosed back porch, new lot and double garage. Payments only thirty dollars per month. Will exchange for good used Ford Sedan and balance in cash.

Have a nice suburban home with good buildings and plenty of fruit, nice location, on good road. Two thousand four hundred dollar equity will trade for two thousand dollar equity in good city property.

New four room bungalow with bath, nicely located near the south side shops. This is a nice cozy little home and priced for quick sale at \$2950, \$500 cash and the balance like rent.

A nice West side modern home in a good location. Will take in a good lot or two as part payment. This is a chance to turn that idle lot on a home. On Elm street.

COLDS CATARRH ASTHMA

Stop suffering! The wonderful new "HALO" (medicated gas inhalation treatment) which created a sensation in Europe and is now sold for first time in this country. Gives instant relief almost instantly. Harmless, simple, pleasant, convenient. Benefits through inhalation of highly scientific medicaments. Lasts for months. Only \$1.00 at Green's, Marmon's, Thompson's, Greenland's, "Everybody's" or any good drug store. Get one today.

HOW I LOST 50 POUNDS

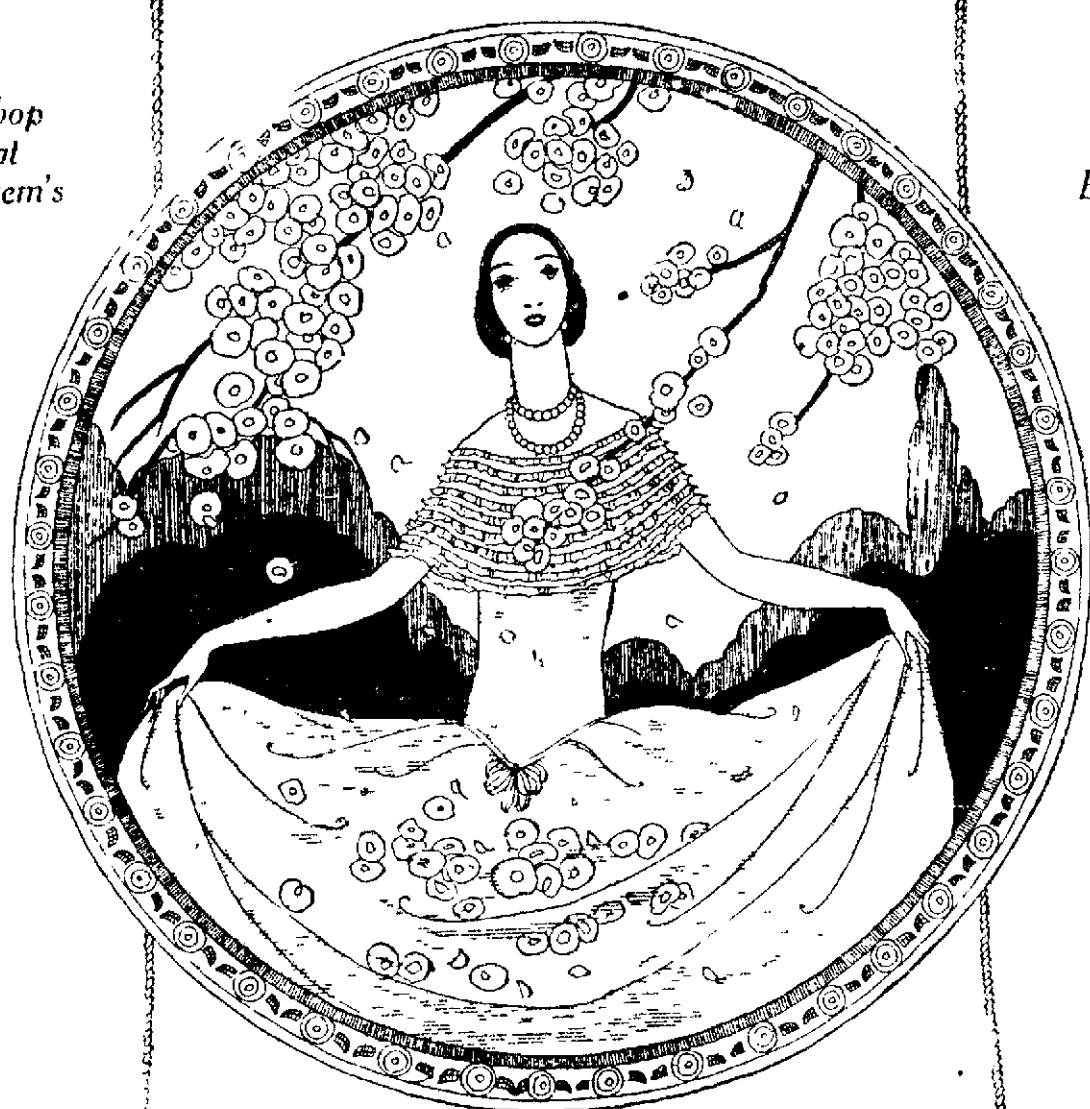

In 2 Months Without Diet, Exercise, Rollers or Massage
New French Method Explained by Mme. Elaine of New York.

"I did not have to go through strenuous exercises nor rub myself with creams, which generally put on flesh instead of taking it off. I did not wear weakening garments nor torture myself with diets. I was fortunate enough while in Europe to find out the secret with which millionaires, French actresses and beautiful women of Paris keep their figures slender. Not only did I easily and gradually lose 50 pounds, but the reduction was lasting, as I have never gained a pound since stopping the treatment. I feel and look years younger, and my health has greatly improved with this wonderful discovery. No matter how fat you are you may do just as I did and easily lose a few pounds every week without any danger. Simply go to any good drug store, get a package of SANGRI-N-A tablets (10 or 20), use as nothing like it has ever been offered before to the public, take it as per directions, and watch your weight go down. You can eat all you want while you take SANGRI-N-A. AS IT IS GUARANTEED ABSOLUTELY HARMLESS, it is the formula of a French physician, and is sold with a money-back guarantee."

Sangri-Na can be had at Baldwin's, Butler's, South Side, Daniel's, Kellner's, Green's and Thompson's Drug Stores.
